GENERAL

Proceedings of the Government of Mysore,

No. 7232-8—Mis.1137, DATED BANGALORE, 5TH NOVEMBER 1901.

ORDER—His Highness the Maharaja of Mysore accompaniedby his Tutor and Governor Mr. Fraser, I. C. S., will start on a tour in the State on the 18th instant. A copy of the programme of His Highness' tour is forwarded for information.

2. The attention of Deputy Commissioners and other officers is invited to Government Orders Nos. 185 of 17th October 1879 and 147 of 4th November 1885 in which detailed instructions have been given for their guidance on occasions of this kind. His Highness the Maharaja is desirous that his tours should not be made an occasion for any vexatious pecuniary loss to the people. The Government rely upon Deputy Commissioners taking the greatest care that as little inconvenience and trouble as possible is occasioned to the people during the tour, and that no laxity is permitted which may defeat this object.

3. It is not intended that the loyal manifestations and tangible expressions of welcome which the people deem it a duty and a privilege to exhibit towards their Maharaja should in any manner be checked or discouraged. But Deputy Commissioners can easily see that these demonstrations are kept within reasonable bounds and managed so as not to become extravagant or oppressive to people and that forced contributions of any kind are not levied.

4. The Deputy Commissioners are of course responsible that no arrangements are neglected for securing the comfort of His Highness while in their Districts, and that he is received in a befitting manner everywhere.

5. The following instructions are issued for the guidance of all concerned :—

1. The Deputy Commissioners will meet His Highness the Maharaja on the border of their Districts and will accompany the camp throughout the District. The other Departmental Heads in the District will also wait upon His Highness during his stay in the District so far as they can do so without prejudice to their official duties and furnish all information on any subject which His Highness may want.

2. The people may be allowed to show their loyalty by the erection of arches, pandals, etc., according to old custom; but no official of whatever rank, shall exert his influence to collect money or permit his subordinates to canvass for contributions from others or from the public for decorations or other preparations for His Highness' visit, but there is no objection to an officer making what contributions he likes towards the expenses involved.

3. Separate instructions will be issued to each Deputy Commissioner under which arrangements will be made for the provision at each halting place of suitable accommodation. If these arrangements will involve any expenditure of money, the Tutor and Governor to His Highness the Maharaja will furnish the Amildar with an advance of money both for such expenses and for the furnishing of camp supplies.

4. Each Amildar who will thus be furnished with an advance of money, must make cash payment for everything bought. The Amildar will be held personally responsible that the money reaches the hands of those who actually supply the articles.

5. The Amildar will be furnished with an indent of the kinds and quantities of articles required at each camp. This indent will serve as a voucher for his account and payment will be made by His Highness' officers not merely for the quantities used but for everything ordered and provided. It is believed that supplies in excess of such indents will not ordinarily be required, and should not be collected by the Amildars.

6. If after His Highness' arrival it is found necessary to supplement such indents, the camp accountant will pay cash for the extra articles supplied and in all possible cases direct to the party who brings in the supply. To prevent unauthorized demands, Amildars should be instructed not to comply with any requisition made by menial servants.

7. His Highness the Maharaja will hold Durbars in all important places *en route* at which the principal residents, European and Native, Official and Non-Official, will be presented to His Highness. The several District Officers will prepare and forward to the Tutor and Governor, before the day fixed, lists of such gentlemen who may be so presented.

8. Deputy Commissioners and other officers concerned will correspond direct with the Tutor and Governor to His Highness in all matter relating to this tour.

READ—

Annual Report on Government Gardens and Parks in Mysore for the year 1900-01.

No. 8000—Mis. 1265, DATED BANGALORE, 23RD NOVEMBER 1901.

REVIEW THEREON.—Government have read Mr. Cameron's report with much interest and are gratified at the increasing popularity and usefulness of the gardens under his charge.

2. The number of visitors to the Lal-Bagh was exceptionally large, having been over 200,000. The garden was honored by a visit from their Excellencies Lord and Lady Curzon on the 8th December 1900.

3. The Summer Show was held on the 2nd August and the exhibits were, on the whole, good. The Winter Horticultural Show was cancelled owing to the lamented death of Her Most Gracious Majesty the Queen-Empress of India.

4. A young lion was purchased from Deval's Circus for Rs. 800 and at the same time a tiger cub was sold to the Circus for Rs. 200. The animals and birds are in good condition.

5. The grounds attached to the Palace Gardens, Gordon Park, Daria Dowlut and Exotic Gardens were properly maintained. The report gives a summary of work done in all these gardens.

6. It is satisfactory to note that attention is being paid to the cultivation of *Paspalam dilatatum* (new fodder grass), Florida velvet bean, rubber trees and other plants yielding useful products.

7. Mr. Cameron's Notes on his tour in Northern India appended to the report, are interesting.

8. The receipts of the various Gardens and Parks amounted to Rs. 3,808-3-5 and the expenditure Rs. 34,400-9-1 during the year under review as against Rs. 4,044-11-5 and Rs. 33,340-10-7, respectively, in the previous year.

No. 8058-65—Mis. 1273, DATED BANGALORE, 25TH NOVEMBER 1901.

ORDER.—It having come to the notice of Government that a party of travellers, while halting at one of the travellers' bungalows in the State, received supplies from the servants of the bungalow and paid only a part of the bill, and when a demand was subsequently made for the balance, declined to pay it on the ground that the amount was not due by them, it is hereby directed that no supplies should be made to strangers, except when paid for on the spot. This should be clearly explained to the servants of all travellers' bungalows.

EDUCATION

Proceedings of the Government of Mysore,

READ—

Letter No. 3547—127, dated 10th October 1901, from the Inspector General of Education in Mysore.

I have the honor to inform you that Mr. A. Gopalacharlu, Manager of the Srinivasa Mandiram Orphanage applies for eight scholarships of Rs. 2-8-0 each, for eight boys of the Orphanage whom he has, after considerable difficulty, arranged to send to the Southern Mahratta Railway Workshops to learn the work of mechanic and fitter. The movement is a healthy one and deserves encouragement. The sooner poor Brahmin lads are accustomed to manual work the better for their future happiness. Mr. Gopalacharlu asks for the scholarships for the reasons that the boys sent to the workshops have to be better fed on account of their hard physical work than other orphans, and have to be provided with soap, towels, books and additional clothes for working in the Railway Workshops.

(2). I recommend that Rs. 20 may be sanctioned with effect from 1st July 1901 for the eight scholarships either from the Local Funds General or from the savings from the State Funds budget of Rs. 44, shown in the concluding paragraph of my letter No. 3501 —123, dated 8th October 1901.

No. 7768-9—ED. 164, DATED BANGALORE, 19TH NOVEMBER 1901.

ORDER THEREON—The proposal is a good one and Government are quite in sympathy with it. As a tentative measure, the eight scholarships of Rs. 2-8-0 each asked for by Mr. Gopalacharlu are sanctioned with effect from 1st November 1901, the cost for the few remaining months of the current year being met from savings in the State Fund Education budget. On receipt of a detailed report of progress made, final orders will be passed early next year as to the continuance or otherwise of the scholarships and as to the source to which the cost thereof should be debited. It is hoped that the movement which has much to recommend it, would turn out an unqualified success and that the help afforded by the Mandiram, supplemented by the grant sanctioned by Government, would enable the orphans concerned to learn enough to be able to earn a decent livelihood after the completion of their course of instruction in the Railway Workshop

JUDICIAL

Proceedings of the Government of Mysore,

READ—

Letter No. 1472—J., dated 28th October 1901, from the Inspector General of Prisons in Mysore, to the Secretary to the Government of Mysore.

I have the honor to invite the attention of Government to certain practices that have been for some time in vogue in this office, practices which are desirable, but for which I can find no Government authority.

(2). I refer to the custom of transferring officials from one Jail to another when vacancies arise in any one Jail.

(3). Rule 18 of the Jail Manual distinctly implies that each of the Jails is a separate institution, the Superintendents of which themselves appoint their own subordinates subject to the approval of the Inspector General of Prisons.

(4). At the present moment an appointment has to be made in the Central Jail, Bangalore, and according to the custom, it should be filled up after a series of transfers between the Central and the District Jails of Mysore and Shimoga. If it is not done in this way, a hardship will certainly accrue to some of the subordinates in the Jails, whose chances of promotion depend upon this method being followed. But as I have said, to do so is distinctly against the rules as laid down in the Jail Manual.

(5). If Government approve of the practice I have referred to being continued, I would suggest that Rule 18 be altered so as to read as follows:—"After the word 'Prisons' at the beginning of the 4th line 'provided always that the Inspector General of Prisons, on the occurrence of a vacancy in any of the Prisons, may, if he thinks fit, fill the vacancy by transferring for that purpose an official from either of the other two Jails and re-arrange the staff of all three Jails in such manner as may seem to him best calculated to secure the promotion of the most deserving of the existing staff, and the efficiency of working of the Prisons. He may suspend any officer for misconduct or misdemeanour reporting the matter at once to the Inspector General of Prisons; but he may not dismiss any officer without the previous consent of the Inspector General."

(6). I request that if Government approve of my suggestion, very early orders may issue, as there is at present a vacancy to be filled and certain promotions have at the same time to be made.

No. 8047-48—J. 709, DATED BANGALORE, 25TH NOVEMBER 1901.

ORDER THEREON.—Government do not think that Rule 18 of the Jail Manual precludes the Head of the Department from making transfers of officials from one Jail to another.

2. In order, however, to remove doubts such as those expressed in the letter read above, the alteration proposed by the Inspector General is sanctioned.

3. The following shall be substituted for Rule 18 of the Jail Manual.

"18. He shall make all appointments of subordinate officials of his own authority and of the Jailor and Deputy Jailor subject to the approval of the Inspector General of Prisons; provided always that the latter on the occurrence of a vacancy in any of the Prisons may, if he think fit, fill the vacancy by transferring for that purpose, an official from either of the other two Jails and re-arrange the staff of all three Jails in such manner as may seem to him best calculated to secure the promotion of the most deserving of the existing staff and the efficiency of working of the Prisons. The Superintendent or Officer in charge may suspend any officer for misconduct or misdemeanour reporting the matter at once to the Inspector General of Prisons; but he may not dismiss any officer without the previous consent of the Inspector General."

READ—

Letter No. 282, dated 23rd September 1901, from the Inspector General of Registration in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to annex in the margin a statement showing the number of registrations and the receipts of the *ex-officio* Sub-Registry offices at Chiknayakanhalli, Harihar, Alur, Honnali and Sorab during the past three official years.

No.	Name of the Sub-Registry office.	1898-99.		1899-1900.		1900-1901.	
		No.	Receipts.	No.	Receipts.	No. of Registrations.	Receipts.
			Rs. a. p.		Rs. a. p.		Rs. a. p.
1	Chiknayakanhalli	325	645 12 0	275	649 4 0	427	917 8 0
2	Harihar	267	550 8 0	236	430 12 0	335	673 4
3	Alur	212	332 8 0	261	595 6 0	363	872 12 0
4	Honnali	315	508 0 0	270	596 12 0	331	651 8 0
5	Sorab	212	628 0 0	232	676 0 0	249	811 4 0

(2) It will be seen therefrom that the number of registrations in the first four of these offices during the official year last concluded, is over 300, the number considered by Government in their Proceedings No. 3142-43—J. 275, dated 2nd September 1899, to be sufficiently large to justify the opening of Special Sub-Registry offices, while the number for Sorab falls slightly short of the prescribed minimum. In the matter of receipts these offices are all sufficiently encouraging, those in Sorab amounting to Rs. 811-4-0, notwithstanding the rather low number of registrations.

(3) As the experience of the Department has been that registrations and receipts have largely increased with the opening of special offices, presided by full-timed officers, as a consequence of the enhanced facilities thereby afforded to the registering public; and as moreover the receipts in these offices at present are sufficiently large to meet the cost of the appointment of a Special Sub-Registrar and an establishment, I am strongly of the opinion that these *ex-officio* offices may, with advantage, be placed in charge of Special Sub-Registrars. I would accordingly recommend the opening of Special Sub-Registry offices in all the five stations referred to above, with the establishment detailed in the margin, tentatively for a year, at the end of which period the question of their confirmation may be considered.

2. Letter No. 280, dated 23rd September 1901, from the same officer, recommending that the 3rd Class Sub-Registry office opened at Chaanagiri as per Government Order No. 10024-25—J. 1235, dated 25th February 1899, be made permanent with the existing scale of establishment.

No. 8106-7—J. 714, DATED BANGALORE, 25TH NOVEMBER 1901.

ORDER THEREON—Government are pleased to direct that Special Sub-Registry offices of the 3rd Class be opened tentatively for a year at Chiknayakanhalli, Alur, Harihar and Honnali.

2. The number of Registrations at Sorab not having been in excess of, nor even equal to the prescribed minimum, it is not considered expedient to open a Special Sub-Registry office there at present.

3. The Inspector General is requested to intimate the date or dates from which he proposes to give effect to the above order and also to submit the necessary draft notifications for the approval of Government.

4. Sanction is also accorded to the temporary Sub-Registry office at Channagiri being made permanent. A draft notification to this effect will be published in the *Mysore Gazette*.

READ THE FOLLOWING PAPERS—

This office letter No. 2718—Legis. 12, dated the 12th August 1901, to the First Assistant to the Resident in Mysore :—

"I am directed to forward, for favor of submission to the Government of India for approval, a draft Regulation to amend the Indian Evidence Act as in force in Mysore. Act I of 1872 has been from time to time amended in British India by Acts XVIII of 1872, III of 1887, III of 1891, X of 1897 and V of 1899; but of these, Act XVIII of 1872, and the provisions of Acts X of 1897 and V of 1899, as embodied in Regulations III of 1899 and X of 1900, are alone in force in Mysore. The present draft Regulation has therefore for its object the adoption of the other amendments which have yet to be introduced."

2. Letter No. 5115, dated the 15th October 1901, from the First Assistant to the Resident in Mysore stating that the Government of India have no objection to the proposed Regulation to amend the Indian Evidence Act, 1872, as it is in force in Mysore.

No. 7470—LEGIS. 41, DATED BANGALORE, 14TH NOVEMBER 1901.

ORDER THEREON—Ordered that the Draft Regulation to amend the Indian Evidence Act, 1872, as it is in force in Mysore, which received the assent of Her Highness the Maharani-Regent on the 3rd day of November 1901, be promulgated.

The following Notification No. 54, dated the 2nd October 1901, issued by the Resident at Hyderabad, is republished for general information :—

The Resident is pleased to direct that the following rules shall be added to the rules published in Residency Orders Notification No. 16, dated the 16th February 1899 :—

III—A. At stations where Medical Officers are appointed they are empowered to examine all passengers and to detain—

(*a*) those sufferings from or suspected to be suffering from bubonic plague;

(*b*) those belonging to any class who appear for sufficient reason to be especially dangerous, whether travelling singly or in numbers;

and to cause such persons [described in clauses (*a*) and (*b*)] to leave the railway precincts under supervision and at the limit of the railway precincts to make them over to the Police Officer of His Highness the Nizam's Government attending the station.

III—B. The Police shall act under the orders given by the Inspecting Medical Officer on duty under these rules with regard to compelling persons to submit to medical inspection, and with regard to the detention and removal of persons described in clauses (*a*) and (*b*) of Rule III-A; and more particularly they are empowered under the orders of the Inspecting Medical Officer—

(*a*) to require any person who may happen to be in a train to come out on the platform for the purposes of inspection;

(*b*) to require any person to proceed to any particular place within the station that may be assigned for persons to remain at prior to or during medical inspection.

VI. Disobedience to the above rules or to any orders issued under the above rules will subject the offender to a prosecution under Section 188 of the Indian Penal Code.

The following Notification issued by the Government of Madras is republished for general information :—

Whereas the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Virinchipuram in the Vellore taluk of the North Arcot District, if pilgrims from the Hosur taluk of the Salem District, the town of Bellary, the Mysore State and other plague-infected parts are permitted to visit that village on the occasion of the ensuing Kadanayar festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency in Council is pleased to prohibit the attendance at the said festival from the 1st to the 10th December 1901 (both days inclusive) of persons from the places mentioned above.

All persons proceeding to the festival in contravention of this Notification will be turned back.

Memo No. 7394-403—L. B. (P.) 1042.

Copy forwarded to the Deputy Commissioners of Districts and Presidents of the Bangalore and Mysore City Municipalities, for information and for favor of wide publicity being given to the same.

No. 7908-11—L. B. (P.) 1082, dated Bangalore, 22nd November 1901.

Order—The Health Officer, Bangalore City, in bringing to notice of Government through his diaries, the case of two students of the City Municipal English School who have been attacked with plague during the present recrudescence, condemns the locality in which the Municipal English, Kannada and Hindustani Schools are situated, as being extremely unhealthy, and recommends separate buildings being provided for them in healthier quarters.

2. The President, Bangalore City Municipality, is therefore requested to make, as promptly as possible, necessary arrangements for these schools being shifted to the Palace buildings in the Fort in which the offices of the Inspector General of Police and the Excise Commissioner are at present located. If the Kola Lodge be available, it may be taken on rent and the office of the Inspector General of Police removed thereto.

3. The Excise Commissioner will be requested to hire a bungalow for his office at a reasonable rent.

Government Proceedings No. 13461—L. B. (P.) 72, dated the 11th April 1901, reducing the Plague establishment of the Bangalore City to Rs. 2,107 with effect from 1st April 1901.

ALSO—

Letter No. 140, dated 19th October 1901, from the President, City Municipality, Bangalore, forwarding in original letter No. 706, dated the 17th idem, from the Health Officer, Bangalore City, submitting for sanction, a proposition statement of additional Plague establishment, &c., required for the Bangalore City, costing Rs. 1,144 per mensem; and stating that in order to check the further progress of plague by creating an effective disinfection agency and other measures connected therewith, the additional establishment asked for is absolutely necessary.

No. 7905-7—L. B. (P.) 1081, DATED BANGALORE, 22ND NOVEMBER 1901.

ORDER THEREON.—Government observe that there is no necessity for the additional establishment applied for, but having regard to the fact that plague has spread over the whole City of Bangalore they have no objection to the scheme proposed by the Health Officer and supported by the President, being sanctioned and kept ready for being brought into force as occasion may arise therefor.

2. The additional establishment recommended as per list appended, amounting to Rs. 1,044 per mensem, excluding an additional allowance to the Health Officer of Rs. 100 and including Rs. 35 to his establishment, Rs. 50 to the Superintendent, Plague Camp, and Rs. 15 to the Plague Police Inspector, is accordingly sanctioned, on the distinct understanding that the previous sanction of the 1st Councillor is obtained on the diaries of the Health Officer for each such increase or for the entertainment of additional establishment, due intimation thereof being given to the Comptroller direct.

Letter No. 270—228, *dated the* 15*th September* 1901, *from the Deputy Commissioner, Shimoga District.*

No. 8156-58—L. B. (P.) 1127, DATED BANGALORE, 27TH NOVEMBER 1901.

ORDER THEREON.—The Deputy Commissioner reports that the chief obstacle in the way of prompt evacuation of villages infected with plague, is the want of materials felt by the people for running up health sheds outside their villages, and that in such cases the supply to them of a small quantity of bamboos at cost price, and in the case of people who are really very poor, free of cost, would induce them to readily evacuate their homes, and requests to be informed whether the expression " for other plague measures " occurring in Order No. III, Forest 291, dated the 22nd October 1898, can be interpreted to mean also such cases as those referred to above and if not, the order may be so amended as to include them.

2. Under the circumstances represented, Government are pleased to sanction the proposals made by the Deputy Commissioner. The District Forest Officer will, accordingly, in any district supply, on requisition from the Deputy Commissioner, a limited quantity of bamboos for use to *bonâ fide* builders of sheds of infected villages at cost price ; and, in rare and exceptional cases, free of cost to the really deserving poor. It is hoped that such free grants will be made only in a few exceptional cases, in which the cost price of the materials so supplied will be debited to the Plague Department.

Proceedings of the Government of Mysore,

READ—

Correspondence ending with letter No. 265, dated the 19th September 1900, from the Deputy Commissioner, Chitaldrug district, bringing to notice that the Madras Survey Officers have wrongly fixed some of the boundary stones of Agrahara, Budrakunte and Kanajanahalli villages in the Madaksira taluk, Bellary district, on the lands belonging to the Mysore villages of Khandenahalli and three other villages of the Hiriyur taluk, so as to include 14 guntas of Mysore land within the limits of the British villages.

(2) Letter No. 4249—R. F. 29 of 98, dated the 26th November 1900, from the Secretary to Government, General and Revenue Departments, to the First Assistant to the Honorable the Resident in Mysore.

I am directed to state that it has been brought to the notice of the Durbar that, during the survey of the villages of Agrahara, Budrakunte and Kanajanahalli in the Madaksira taluk, Bellary district, the Madras Survey Officers have wrongly fixed some of the boundary stones of those villages on lands belonging to the Mysore villages of Khandenahalli, Salhunase, Dharmapura and Suguru in the Hiriyur taluk, so as to include 14 guntas of Mysore land within the limits of the British villages as shown below and in the accompanying sketch maps, which, it is requested, may be returned when no longer required.

(2) I am, under these circumstances, to request the favor of your moving the Honorable the Resident to kindly address the Madras Government on the subject, in view to the removal of the boundary stones wrongly fixed to their places on the British side of the boundary line between the Mysore and British villages.

(3) Memo No. 4729, dated the 23rd September 1901, from the First Assistant to the Honorable the Resident in Mysore, to the Dewan of Mysore, communicating a letter from the Government of Madras.

Copy of letter No. 2228—A., dated the 14th September 1901, from the Secretary to the Government of Madras, Revenue Department, to the Honorable the Resident in Mysore.

In reply to the Resident's letter No. 6469-580—1900, dated 11th December 1900, I am directed to state that His Excellency the Governor in Council accepts as accurate the Mysore Survey of the boundary in question affecting Kanajanahalli, Budrakunte and Agrahara in the Madaksira taluk of the Anantapur district. Instructions have now been issued for the removal of the stones set up by the British Officers to their correct position.

2. The sketch maps received with the letter under reply are herewith returned.

Report of the Agricultural Chemist for the year 1900-01, received with his letter No. 140, dated 8th September 1901.

No. 2062-72—R. F. 12-1900, DATED BANGALORE, 15TH NOVEMBER 1901.

ORDER THEREON—During the year 1900-01, two Assistant Chemists with the chemical work they were doing in the Geological Department were transferred from that Department to work under the Agricultural Chemist and a Probationary Assistant Chemist was newly appointed to assist him.

2. A part of the Chemical Laboratory, which is under construction, was completed and work is being carried on in it since February 1901. The whole building is expected to be completed in a few months. A small plot of ground adjoining the Laboratory has been taken up for experimental cultivation.

3. The major portion of the report deals with the sugar industry as now carried on in the State, and contains information of an instructive and interesting character. It will be published both in English and Kannada, and also circulated for general information.

The Superintendent of Revenue Survey and *Ex-officio* Director of Land Records in Mysore.
The Deputy Commissioners of Districts.

No. R. 2093—100, DATED BANGALORE, 16TH NOVEMBER 1901.

ORDER—Government have from time to time had occasion to remark upon avoidable and sometimes culpable delays in the district and taluk offices and they now consider that the strict enforcement of a proper system of unanswered reference lists and of a careful scrutiny thereof on the part of all Revenue Officers concerned will doubtless be conducive to a greater despatch of work all round than faults found and observations made in individual cases.

2. Every Amildar, Deputy Amildar included, should in the first week of every month obtain without fail from his officials complete lists—(1) of reports and replies due to his official superior; (2) of reports and replies due to himself from his subordinate officers, such as shekdars, &c.; and (3) of correspondence pending between himself and the officers of other Departments, scrutinize these lists carefully, send reminders promptly in cases of delay, and hold himself personally responsible that no delay of any kind occurs anywhere which is not absolutely unavoidable. A similar procedure should invariably be adopted by the Deputy Commissioners of Districts and by their Sub-Division Officers and Assistant Commissioners. Cases of inexcusable delay should be suitably dealt with.

3. Government trust that the instructions laid down above will be strictly attended to in future and that reasonable expedition in the disposal of work will thereby be ensured.

Letter No. 316, dated 31st October 1901, from the Deputy Commissioner, Kadur district, submitting for orders of Government, an application from the Agent of the Agricultural Bank at Chikmagalur for the grant of a certificate to Mr. C. Srinivasa Rao, a member of the Bank, to enable him to borrow a sum of Rs. 1,000 on the hypothecation of the crop in order to pay the interest due by him to the Bank.

(2) Also letter No. 348, dated 14th November 1901, from the same officer, reporting with reference to Government Order No. R. 1639-48, dated 1st October 1901, that out of the amount of interest due to Government by the Bank up to the end of June 1901, only a sum of Rs. 790-13-11 has been paid by the Bank and that the members who are stated to have been arranging to pay the balance at an early date have not complied with the Government order and promising a further report in the matter.

No. R. 2197—R. F. 117-95, DATED BANGALORE, 22ND NOVEMBER 1901.

ORDER THEREON.—The affairs of this Bank seem to require immediate looking into. Every possible consideration has been shown to this institution, and yet it has failed to realize its responsibility and to pay to Government even the interest due by it within the appointed time. The further report promised by the Deputy Commissioner is awaited, and should be expedited in view to such further action being ordered as might be deemed necessary. The permission granted by Government to raise a loan on the hypothecation of the crop is an exceptional one, intended only to enable the planters concerned to find the wherewithal to meet working charges in these hard times, and Government are surprised that it should have been applied for by so prominent a member of the Bank as Mr. C. Srinivasa Rao, to enable him to pay the interest due on the loan obtained by him. The application is clearly inadmissible and must be refused.

No. R. 2266-74, DATED BANGALORE, 26TH NOVEMBER 1901.

ORDER—The Government resolve to issue the following notification amending Rules 72, 73 and 74 of the Rules issued under Section 233 of the Land Revenue Code, with Notification No. 264—R. 122, dated 10th July 1901.

NOTIFICATION.

No. R.2275, dated 26th November 1901.

The Government of Mysore are pleased to direct that Rules 72, 73 and 74 of the Rules issued under Section 233 of the Land Revenue Code, with Notification No. 264—R. 122, dated 10th July 1901, be amended as follows :—

(1) Substitute the following for Rule 72 :—

"During re-survey, in regard to lands used, or which may be used, for purposes of agriculture, every occupancy separately recognized in the village accounts, if not less in extent than the minimum for survey numbers fixed in relation to such lands under Section 109, may be separately measured, classified and assessed and defined by boundary marks and made a survey number."

(2) Add the following to Rule 73 :—

"The Deputy Commissioner may direct or sanction the subdivision of a survey number under Sections 122 and 125; but he should not, under these or any other sections, make any subdivision or alteration of the boundary of any survey number in the field. Such work must invariably be carried out by the Survey Superintendent, to whom the necessary application should be made and who will then give orders as to whether the necessary field work is to be executed by the District Surveyor with the consent of the Deputy Commissioner or by an official of the Survey Department."

(3) Substitute the following for Rule 74:—

"When at the time of re-survey, land is held by two or more co-occupants in shares and each of the said occupants has a separate account to which he pays his quota of the land revenue due in respect of the occupancy separately, but the proper share of each occupant has not been permanently divided from the rest, such land shall be measured as if it constituted one occupancy, and each co-occupant's share therein recorded in annas with a view to the proper assessment of each share being fixed at the introduction of the settlement and each share being constituted a recognized share of a survey number."

The following letter No. 205, dated 30th October 1901, from the Agricultural Chemist with the Government of Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

In continuation of my D. O. letter, dated 16th October 1901, *re* "Diseased paddy" sent by Mr. Sreenivasa Rao of Gargeswari, I beg to state after examining two other samples of paddy sent from the same locality with similar results to those following the examination of the first sample already reported on, I visited the affected locality on Sunday, October 27th. There was no difficulty in finding the insect pest doing the damage when looking for it on paddy which had not been affected long enough to permit the insect having passed through both the larval and pupa stages.

2. The larvæ, which probably measure nearly 3/16" to ¼" when full grown, belong to the group popularly known as maggots and resemble somewhat the larvæ of the Hessian Fly, which is so destructive to wheat in Europe and America. It had not yet been identified, but most probably it is identical with the insect which appeared in Behar on paddy in 1880 and was provisionally named by Mr. Wood-Mason, *Cecidomia Oryzæ*, but about which very little is known. I shall send them to the Entomologist to the Government of India with a request to identify them and give such other information as may be within his reach. Fortunately the damage done by the insect is not as great as I was led to believe it to be. It extends over a considerable area but it is only in very small patches that anything like a total loss of the crop has occurred.

3. Apparently, the better cultivated lands suffered least. At any rate, a poor stunted crop always showed a larger proportion of affected plants than the more luxuriantly growing fields next to it. A similar fact is noted in Canada about the attacks of the Hessian Fly (*Cecidomia destructor*), and until the life history of this pest has been thoroughly studied, the best remedy is undoubtedly to cultivate and manure the soil well. This will, most likely, make the crop less liable to attack by the insect pest, and will most assuredly reduce the damage done by the pest in case the crop should be attacked.

4. The fact that the only reference to the pest I could lay my hands is that of the attack in Behar in 1880 together with the report that it has not been noticed in the T.-Narasipur Taluk for at least 20 years, indicate that the pest is not likely to become general unless some epidemic has taken place in the parasites which feed on it, or some change in climate or method of cultivation has taken place. A very large proportion of larvæ which were found had been killed by a parasite belonging to the class of insects known as *Hymenoptera*, most probably one of the *Proctotrupids*; and as from 10 to 30 of these very tiny insects live in each of the affected larvæ of this paddy pest, it is very probable that this parasite will keep the pest in check. The attack this year may be due to a great variety of causes. Possibly it may be due to the scarcity of irrigation water last year enabling the pest to find a better or more timely shelter in which to hybernate. Possibly, the parasites attacking it may have been present in smaller quantities last year. But until the life history is thoroughly known it will be fruitless to ascribe possible reasons for its appearance this year or to give other remedies than those suggested above.

Government Order No. 471-3—Fl. 145, dated 15th July 1901, directing an audit of the Palace Accounts for three years.

READ—

The following Reports by Mr. W. H. Scott, Examiner, Public Works and Railway Accounts in Mysore :—

(1) Preliminary Report dated 3rd September 1901, concerning Palace Accounts.

CIVIL COMPTROLLER.

1. The Charges incurred by the Civil Comptroller consist of—
   (*a*) Cash Disbursements at Treasuries and adjustments on account of supplies from Government Departments ; and
   (*b*) Adjustments from the Investment Accounts.

2. The accounts dealing with Charges under (*a*) have been examined for the three years 1889-90, 1890-91 and 1891-92. The results brought out are, on the whole, correct—though there are small discrepancies, and vouchers are not always forthcoming. What remains to be done is in connection with some points needing explanation, which have been referred to the Civil Comptroller, whose elucidation is awaited.

3. The only records I have been able to obtain in connection with the Investment Accounts are the following three registers :—
   (1) Mysore Railway Loan Debenture Register.
   (2) Register of Securities held in Treasuries (1888—1891).
   (3) Ditto ditto (from 1891).

4. These registers, so far as H. H. the Maharaja's personal estate is concerned, show in detail each note or debenture held on that account, with the date of the half-yearly interest payments against each entry. The interest as shown in these registers does not agree with that credited in the Palace Accounts. The Comptroller has been asked to effect the reconciliation, if possible, and also for the production of the authority for the different purchases, and the papers connected therewith. This was on the 20th August.

PALACE CONTROLLER.

5. Work on these accounts was begun on about the 27th of July, and the interval between that date and the 23rd of August was wholly occupied in working out detailed statements of advances and deposits. The work was laborious owing to the numerous transactions under these heads and to the necessity of having to pull up items from previous years and work them up to the three years under audit.

6. There still remains an advance item of some Rs. 60,000 paid to Rajabandhus, which has not yet been separated into its items. Advances in one name are frequently returned in another, so that it is doubtful if there is possibility of separation at all.

7. The advance statement as now prepared further discloses the fact tha out of a total advance of Rs. 29,993-5-9 made to the Durbar Bakshi during January and February 1890 by the Civil Comptroller, only an amount of Rs. 19,123-1-0 has been accounted for, leaving a balance of Rs. 10,870-11-9 which has apparently neither been accounted for to the Palace Controller nor is any credit traceable in consequence of the amount having been returned to a Government Treasury.

8. As a matter of fact, this amount is shown, though incorrectly, as outstanding in the current advance statement maintained in the Civil Comptroller's office. This shows an amount of Rs. 5,527-4-9 as balance against the Durbar Bakshi, and an amount of Rs. 5,243 against Messrs. Woodville & Co. The total of these sums aggregates to Rs. 10,870-4-9.

9. The amount of Rs. 5,243, however, transmitted through the Durbar Bakshi to Woodville & Co., has actually been paid and charged off to a Final head in the accounts for 1889-90, and the amount shown in the advance statement must, accordingly, be the undisbursed balance of some other advance.

10. From the accounts submitted by the Durbar Bakshi, the following results are ascertainable:—Against an advance of Rs. 17,000 made in January and February 1890 (his acknowledgments for Rs. 15,000 are filed), disbursements are traceable only to the extent of Rs. 7,000, leaving an unaccounted-for balance of Rs. 10,000. Similarly, against an advance of Rs. 3,214-5-9, made in February 1890, disbursements of Rs. 2,343-10-0 only are traceable, leaving an unaccounted-for balance of Rs. 870-11-9. The total of these balances again aggregates to Rs. 10,870-11-9.

11. It may be noticed that there is an advance of Rs. 7,000 shown as made in January 1890. Against this there is an acknowledgment of Rs. 2,000 only from the Durbar Bakshi. The sum of Rs. 7,000 does not appear in the accounts as made up of two items (Rs. 5,000 and Rs. 2,000).

12. The above results would seem to clearly point to the sum of Rs. 10,870-11-9 having been charged to the Palace, no corresponding value having been received for it. I presume the Durbar Bakshi has not retained this large balance with him all these years, but it is just possible that, without disturbing the above results, the sum has actually been accounted for and charged in the accounts.

13. This has been made possible by the method of adjustment which has been followed. On the Durbar Bakshi submitting his accounts for the advances received by him from the Civil Comptroller, the total amount of the account was brought as a Receipt into the Account Current under "Suspense" and distributed on the Charge side to the Final heads to which it belonged. At the end of the year the amount would in the ordinary course appear as an advance in the Civil Comptroller's portion of the accounts, and there would remain accordingly an adjustment to be effected by crediting "Advances" and debiting "Suspense." It is possible this last adjustment was never made and the advance statement allowed to continue incorrect year after year. Gopalaiengar is now employed on working up the Account Current figures from the Cash Book and effecting a separation between cash and adjustments, which will give decision on the point. The Durbar Bakshi's accounts have been proffered as supplying the want of a detailed account of suspense. I do not however see that there has been any great care in filing these, so that it is possible they are not all there.

14. There is also an item of Rs. 2,138 (*circa*) which appears to have been twice charged to the Palace by the Civil Comptroller (in 1889 and 1891).

15. Other points involving no over-debit or over-credit are not noticed in this rough memo.

(2) Report dated the 16th September 1891, concerning the Results of the Audit of the Palace Accounts.

1. I am required under Government Proceedings No. 471-3—F. 145—

(*a*) to subject the Palace Accounts of the years 1889-90 to 1891-92 to a thorough audit; and

(*b*) to give my opinion on the present system and how it can best be improved on the lines suggested by Mr. Biddulph.

2. The results of the audit are detailed in the following paragraphs, which deal successively with the accounts maintained in Bangalore and Mysore by the two offices—that of the Civil Comptroller and that of the Palace Controller—concerned in accounting for Palace expenditure. A report embodying my opinion on the present system, etc., will follow shortly.

CIVIL COMPTROLLER'S ACCOUNTS.

3. *Receipts.*—The opening balance, on 1st April 1889, representing Palace monies in Government Treasuries, amounted to Rs. 2,49,645-1-10. The balance of the ledger account in the Provincial books amounted to Rs. 2,13,414-1-3. The difference of Rs. 36,231-0-7 was the saving from the previous year's Civil List grant which had been transferred by debit to "Palace" and credit to "Revenue Deposits" where it was held in favour of the Palace. The amount should have been credited to the Personal Estate Account direct.

4. The receipts of the Palace credited by the Civil Comptroller were derived from the following sources :—

(*a*) Investments.
(*b*) Miscellaneous Receipts in Government Treasuries.
(*c*) Book Adjustments by the Comptroller.

(*a*) Investments.

5. Registers were maintained showing on one page particulars of investments made, and on the page opposite, the date entered against each debenture or note of the half-yearly interest payments.

6. In the month of April 1889 the total sum credited on account of Interest in the Huzur Treasury account amounted to Rs. 8,750, while the interest payments due and recorded in the register totalled only Rs. 7,000. The difference of Rs. 1,750 is the amount of the half-yearly interest payable on debenture No. 1102 for Rs. 70,000.

7. It would seem that when in February 1887 the single debenture for Rs. 2,94,500, which up to that date had been held on account of the Personal Estate, was separated into three debentures for Rs. 2,00,000, Rs. 70,000 and Rs. 24,500, the endorsement on the new debenture for Rs. 70,000 stating the date up to which the interest had been paid wrongly showed the 14th August 1886 instead of the 14th February 1887. The debenture remained in the custody of the Dewan, and the interest was four half-years in arrears, when in April 1889 it was sent to the Huzur Treasury for credit of interest and custody. Payment was made from the date entered on the debenture, resulting in an over-credit of Rs. 1,750 to the Palace.

8. Again, in March 1890, the sum credited as interest in the Huzur Treasury Account Current amounted to Rs. 13,975, while the interest payments due and recorded in the register total only Rs. 12,975, *i. e.*, an excess credit of Rs. 1,000 has been apparently afforded to the Palace. This latter figure—Rs. 12,975—appears also in the List of Payments under Voucher No. 187. How the Comptroller balanced the accounts of the month remains to be explained.

9. The interest payments during the year 1890-91 were correctly made.

10. The entries in the registers for the year 1891-92 are unintelligible and the entries cannot be checked with the accounts. The Bank memos advising the interest credits for the last four or five months of this year have not yet been found. They are being searched for.

11. A register showing the bonds held and details of interest payments for the interval 1878—1888 also has not been produced. It is being searched for.

(*b*) Miscellaneous receipts.

12. In the year 1890-91 Rs. 5,000 was, in different months, recovered from the pay of the Dewan and credited to the Palace—Rs. 4,000 in the same year and Rs. 1,000 in 1891-92. The Civil Comptroller's Account Current included these amounts together with a sum of Rs. 412-5-0 paid into the Huzur Treasury by the Durbar Bakshi, with the remark "Credits in the Huzur Treasury on account of Palace, for which particulars are not known." The particulars have not since been ascertained by either office and still remain unknown. The outstandings, wherever they are, against which these payments were made, are presumably still unadjusted.

(*c*) Adjustments.

13. These have been correctly effected.

14. *Expenditure.*—It will be convenient for the purposes of this report to divide the expenditure incurred and booked by the Civil Comptroller under the following heads:—

(*a*) Recurring Disbursements at Government Treasuries.
(*b*) Payments of Pensions outside the Province.
(*c*) Special Disbursements made on Palace requisitions.
(*d*) Adjustments, etc.

(*a*) Recurring disbursements.

15. These payments, made on account of pensions, Palace establishment, railway charges, land compensation, etc., appear usually in the Treasury Lists of Payments, are picked out from these and brought together in the District Abstracts and from thence carried into the Detail Book, where each item is allocated to the head to which it belongs.

16. The charges for the most part are correctly made and vouchers to an extent filed (*vide* para 19). The following objections are noticed:—

(*a*) Vouchers on which payments have been made on account of supplies, railway charges, and land compensation in many cases bear no acceptance of any Palace authority. There is consequently nothing to show that supplies, etc., were actually received, or, if received, were correct as to quantity and quality,—*e. g.*, Huzur Treasury Voucher No. 179 of April 1889 for Rs. 429-12-1, Bangalore Treasury Voucher No. 123 of February 1890 for Rs. 9,746-4-0, and many others.

(*b*) Payments of salaries and pensions were made in several cases before expiry of the month for which they were due: *e. g.*—

Huzur Voucher No. 177 of June 1889 for Rs. 800,
Do 262 of September 1889 for Rs. 75,
Mysore Voucher No. 298 do Rs. 700,
and many others.

(*c*) Amounts paid in one month have been accounted for in the next: *e. g.*-

Kolar Voucher No. 298 of December 1889 for Rs. 6,
Mysore Voucher No. 437 of April 1889 for Rs. 89-8-0,
and others.

17. Contingent charges of the Palace Gardens for the month of December 1890, amounting to Rs. 31-2-0, have been erroneously charged to the head, "20. Minor Departments: 4. Botanical Gardens," instead of to "Palace."

18. The allocation of charges correctly does not seem to have had any great care, and even when finally the debit has been carried to the correct head, the erroneous entries in the preliminary statements and registers were allowed to remain unaltered. Thus in March 1892 a charge of Rs. 300, though ultimately correctly allocated, passed through the preliminary accounts as a payment on account of "Palace Supplies." Again, in 1889-90 and 1891-92 amounts of Rs. 138-8-0 and Rs. 265 respectively paid on account of "Palace Pensions" have been charged under "Palace Supplies."

19. Vouchers for the following payments cannot be produced:—

In the case of payments marked with an asterisk there are neither vouchers nor lists of payments forthcoming.

20. These payments find place also in the Huzur Treasury List of Payments as part of the amount transferred to the Resident's Treasury to meet the monthly demand of the Accountant General, Madras.

(*b*) Pension Payments outside the Province.

21. It might as well be stated at once that no detailed audit of these figures has been undertaken. In the demand are entered aggregate payments supported by bundles of accompanying vouchers, but it is not ascertainable from these whether the payments relate to the Palace or to the State, neither is there on record any index for these years of Palace pensioners. A detailed test of the amounts would be laborious and would take up considerable time in comparison with the amounts involved.

22. The figures shown in the allocation abstract made in the Comptroller's office have been traced through the registers into the Account Current, where they have been correctly charged. Demands in support of the following charges cannot be produced :—

			Rs.	a.	p.
April 1889	...	...	101	8	0
August 1891	...	...	268	8	0
November 1891	...	...	261	0	0
December 1891	...	...	276	0	0

23. These consist of (*a*) payments to firms, etc., on requisitions received from the Palace Controller, (*b*) charges finally debited to the Palace by the Civil Comptroller, (*c*) remittances to the Bank of Madras.

(*c*) Special Disbursements.

24. Payments under (*a*) charged to "Advances" or "Remittances" by the Civil Comptroller come under detailed audit in the Palace Controller's Accounts.

25. Payments under (*b*) are few and have been correctly charged. In the case of purchases during tours, these charges were made on the authority of the tour account received from the Dewan's office. Some acceptance would seem to have been necessary in such cases. Thus an amount of Rs. 1,108-8-0 paid and charged off finally on account of a turn-out purchased has not been acknowledged by any Palace authority.

26. The remittances to the Bank (*c*) agree presumably with the pass-book and are correctly charged. The procedure at the time seems to have required the entry of these sums against the head "Palace Remittances" provided in the Account Current. Many payments are shown, however, under "Local Remittances" and no correction of these erroneous entries were ever made in the Treasury Accounts. The payments are subsequently correctly shown as charges against the Palace in the Detail Book. However, accounts should be correct at each stage of their compilation and the steps between the Treasury Accounts and District Abstracts should have been made apparent.

27. In January 1890 an amount of Rs. 50,000 remitted to the Palace passed into the Provincial Accounts as a "Local Remittance." The amount was charged also to the Palace in the Account Current for the same year, which perhaps is explained by the fact that this did not issue until a whole year after date. This entry caused of course a discrepancy to that extent between the amount of "Palace Remittances" as appearing in the Provincial books and that shown in the Palace Account Current.

28. In the following year the amount was adjusted in the Provincial books by credit to "Local Remittances" and debit to "Palace." There is consequently the compensating difference this year, between the general books and the Palace account.

29. *Closing Balance.*—It is noticeable in the Account Current for 1889-90 that while there is shown the large balance of Rs. 2,59,609-12-7 in favour of the Palace, there at

(*d*) Adjustments, etc.

the same time appears as an excess payment from Provincial revenues the sum of Rs. 4,63,232.

30. It is explained that, in order to save remittance charges from Mysore to Bangalore and back again, the Mysore Treasury was instructed to transfer its balances to the Madras Bank as remittances on account of Palace. The remittances so made proving to be a long way beyond the requirements of the Palace for the year, the excess was taken out of the accounts and treated as a remittance of the following year.

31. Whether it was due to the impression which this procedure might be calculated to give, *viz.*, that of a large excess payment in one year pointing to the necessity of a restriction of expenditure in following years, or whether, apart from this, the Palace has spent what it wanted to spend and has yet fallen within the margin of the yearly revenue, the fact remains that from the commencement the balance held in Government Treasuries on account of the Personal Estate has steadily undergone increase year by year and partakes more of the nature of a fund than of a current working balance as the accounts show it.

32. Had this been prevented, it is probable that the amounts would have been invested before they were, instead of unprofitable deposits being made year after year in Government Treasuries. As it happened, the balance in 1883-84 was apparently Rs. 74,764-1-9; this steadily increased; but it was only after it had reached in 1887-88 the large sum of Rs. 3,68,998-3-2 that securities were purchased and the balance reduced to Rs. 1,06,664-7-4. From this point the fund again grew steadily, but it was only when, in 1891-92, it had forced itself into prominence by reaching the high figure of Rs. 3,98,360-15-5 that securities were purchased.

33. A conformity of procedure was not followed in connection with the ledger account of the Personal Estate. The balance of 1889-90, for instance, includes an amount of Rs. 3,20,000 due to investments, *viz.*, debenture Rs. 2,94,500 and Government of India bonds Rs. 25,500. The purchases of 1887-88 should have been included in the accounts in the same way, but were not.

Note Book of the Personal Estate.

34. The transactions included in the Account Current prepared by the Comptroller find entry either as actual receipts and final charges or fall under one of the Debt heads.

35. After the submission of the account a Note Book of the Personal Estate showing only actual receipts and final charges was posted and the balance struck.

36. It is evident that the balance of the Note Book will differ from the balance of the Account Current by the net excess or deficit of the receipts under the Debt heads over or below the charges under these heads. The detail of the balances, however, written up in the Note Book includes, for instance, the cash balance in the Palace Treasury at the figure at which the annual Account Current shows it, though there had been transactions under the "Debt Head Deposits," which must affect this cash balance. An incorrect figure has consequently been necessarily entered for the amount of outstandings under "Advances."

37. Correctly written up, the detail would stand as follows:—

	1889-90.			1890-91.			1891-92.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

Total ...	14,03,692	11	6	17,31,150	9	4	21,19,608	13	6

38. The minus balance in the Palace Treasury shows that deposit money, which should have been kept separate, has been utilized to the extent at least of Rs. 2,794-13-10 in 1889-90 and of Rs. 13,238-0-5 in 1890-91, to meet current expenses.

39. The minus balance under Suspense is due to Final heads having been debited against a receipt under a Debt head and represents the liability of the Palace at the end of the year on account of monies advanced by the Civil Comptroller in that or previous years but not yet adjusted by him to the debit of the Palace.

40. Considerable delay occurred at times in the adjustment of these items of "Suspense." Thus the balance under Suspense in 1891-92 includes the amount of Rs. 18,000 transferred in that year from the Bombay Bank to the Madras Bank, and which was credited to the Palace under the Debt Account. The amount was adjusted by the Comptroller in the year 1894-95, or three years after.

41. The item of Rs. 1,980-8-0 has been shown separately. It is the excess of what is shown in the Note Book as a cash balance at the end of 1888-89 over the corresponding cash balance of the Account Current, *i. e.*, it is the net excess under the Debt Account of the debits over the credits to the end of 1888-89. As "Deposits" is the only head under the Debt Account affecting the Palace Treasury cash balance, the only inference that can be drawn if the Note Book entry for 1888-89 is correct, is that deposits have been overpaid and the Palace has suffered loss to the extent at least of Rs. 1,980-8-0.

42. It may, however, be due to a Suspense item,—though how a debit balance could have asserted itself under the Debt Account I am unable to conceive. If, however, it is a Suspense item, credit to the Palace has been long delayed, if it has been given at all. It was due in 1888-89, has not been afforded, as far as can be told, in the accounts of the three years 1889—1891, and may still be outstanding.

43. The amount was referred to by the Comptroller in his detail of the closing balance of 1889-90, but it was merely stated that the amount represented the excess of the payments under the Debt Account over the receipts. The amount was not investigated even though, as mentioned above, the difference between the two accounts is presented as being in the balance of the Palace Treasury.

PALACE CONTROLLER'S ACCOUNTS.

44. *Receipts.*—A separate register showing items of deposit as they were received or disbursed was not maintained. Once in three or four months the accounts were gone over and a list prepared of what could be ascertained as representing the items of deposit outstanding on that date—a very precarious procedure, especially as at times, after there had been transactions against several deposit items, only the net receipt or payment found entry in the accounts.

Deposits.

45. There is, however, only one instance in the accounts of the three years 1889-90 to 1891-92 where repayment of deposit money was made in excess of what was received, *viz.*, in July 1899 when payment was made of Rs. 565-12-0 against a receipt of Rs. 563-15-0. This over-payment was subsequently recovered, but see para 41.

46. Money received in deposit has been used regularly to meet current expenses, *vide* para 38.

47. In June 1891 a sum of money was received from H. H. the Gaekwar of Baroda for distribution to Palace servants. A portion was paid at the time and the balance subsequently disbursed as a presentation from the Sringeri Guru.

48. But for a small discrepancy of Rs. 1-6-3, the cause of which is not traceable, the deposit transactions for the years 1889-90 to 1891-92 have been otherwise correctly accounted for.

49. As in the case of deposits, these miscellaneous receipts were frequently utilized to meet current expenses instead of being at once remitted to the Mysore Treasury, and it was consequently necessary to carry forward month by month an arrear balance payable into the Treasury at a future time.

Receipts on account of the Personal Estate.

50. A sum of Rs. 100 contained in the opening balance of April 1889 seems to have been paid in excess into the Treasury. This does not of course affect the net result to the Palace.

51. *Expenditure.*—The current expenditure of departments divides itself under the heads of Establishments, Supplies, and Contingencies.

52. Lack of time did not permit a very minute or extended audit of this expenditure. Different departments were, however, taken up, and the expenditure under each of the above divisions, for different intervals, checked. Vouchers were not in many cases forthcoming for payments on account of establishments and contingencies, nor could the departmental indents for supplies be produced by the Motikhana. The accounts however bear evidence of supervision of responsible authority, and the results, so far as could be checked, have been correctly brought out and payments made.

Recurring Charges.

53. The bills for purchases were checked and the registers examined.

Purchases.

54. In January 1892 Hamilton & Co. issued a reminder asking for payment of a balance said to be due to them. The money, it seems, was paid without question There is no trace to be found of the details of the jewels or the date of their purchase. The amount involved is Rs. 440.

55. The registers were not systematically posted. In some cases these are maintained in the Controller's office as well as in the departments, in other cases only in the departments. Some articles are posted, others excluded, owing to the value being considered insignificant or owing to their disposal soon after purchase. The books are of little value as records.

56. So far as advances made from the Palace Treasury are concerned, the accounts are, on the whole, satisfactory. There is however an item of Rs. 76,269-11-1 representing advances made from time to time to several Rajabandhus and shown in a lump sum in the Advance statement. Endeavour was made to separate the amount into individual dues, but this proved very laborious work, owing to money advanced to one person being returned, owing to his death perhaps or absence, by another and acknowledged with no very clear description of the account to which it belonged. The separation for the two years 1883-84 and 1884 85 has been effected. It would be satisfactory if this could be completed to date.

Advances.

57. The accounts however of amounts advanced by the Civil Comptroller and advised to the Palace Controller are not in so satisfactory a condition. It would seem that each office expected the other to watch the adjustment of these transactions, so that between them they have received very little attention, as the following paragraphs will show.

58. There are some advances made even prior to 1889-90, and others made during the year, which have been carried on from year to year and are still unadjusted. The correspondence shows the articles to have been received in 1889 or before, and why the amounts have not yet been charged to the Final heads concerned, remains a mystery; *e. g.*—

			Rs.	a.	p.
Amount paid to	Mr. Sanderson	...	3,636	5	9
Do	Sowkar R. Tawker	...	4,950	0	0
Do	Woodville & Co.	...	7,525	0	0
Do	Archibald & Co.	...	713	12	0

59. As already mentioned in my memo of the 3rd instant, out of an amount of Rs. 29,993-12-9, advanced to the Durbar Bakshi during the months of January and February 1890, only a sum of Rs. 19,123-1-0 has been accounted for, leaving a balance of Rs. 10,870-11-9, for which the Durbar Bakshi has submitted no accounts, nor is there any trace of the amount having been repaid into the Palace or any Government Treasury.

60. The usual procedure in dealing with the Durbar Bakshi's accounts was to enter the transactions up in the Cash Book, whence they were carried into the Account Current where "Suspense" was credited and Final heads concerned debited. No detailed account of "Suspense" was maintained, so that it is not manifest to what extent the figures of the Account Current are due to cash transactions and to what extent to adjustments. The Cash Book itself is very inexplicit, and the intermediate compilation between it and the Account Current not having been recorded, the separation could not be effected, working from this basis.

61. The Cash Book however does show, recognisably, the entries due to the Durbar Bakshi's expenditure. These entries have been carefully checked for the three years 1889-90 to 1891-92 and confirm the result already presented by the file of the Durbar Bakshi's original accounts, *viz.*, that the sum of Rs. 10,870-11-9 has not been accounted for.

62. This sum is, as a matter of fact, still outstanding in the Advance List in connection with the Current Accounts. These show a sum of Rs. 5,627-4-9 against the Durbar Bakshi and a sum of Rs. 5,243-7-0 against Messrs. Woodville & Co. The total of these two sums aggregates Rs. 10,870-11-9.

63. The amount of Rs. 5,243-7-0, however, is acknowledged by the Durbar Bakshi in his accounts, shown also as having been paid by him, and has been finally charged in the accounts. The outstanding accordingly must be the undisbursed balance of some other advance.

64. The Civil Comptroller's accounts show the advance of two sums, *viz.*, Rs. 7,000 and Rs. 3,000, to the Durbar Bakshi in the month of January 1890. For the sum of Rs. 3,000 a receipt signed by the Durbar Bakshi is recorded, but against the sum of Rs. 7,000 a receipt from the Durbar Bakshi for Rs. 5,000 only is forthcoming. Neither the Rs. 7,000 nor the Rs. 3,000 has been accounted for by the Durbar Bakshi.

65. Again, in February 1890 the Comptroller's accounts show an advance of Rs. 3,214-5-9 and the Durbar Bakshi's receipt for this amount is recorded. In his account however he has credited only a sum of Rs. 2,343-9-10, *i. e.*, an amount less by Rs. 870-11-9.

66. This amount of Rs. 3,214-5-9 was advanced in one sum to the Durbar Bakshi for payment as follows:—

	Rs.	a.	p.
Saliah Mahomed Cassim	870	11	9
Messrs. Spencer & Co.	576	14	0
„ Bertie & Co.	256	12	0
„ Orr & Barton	1,500	0	0
Total ..	3,214	5	9

67. Though the item of Rs. 870-11-9 has not been brought on to the Receipt side of his account, it has been debited by the Durbar Bakshi on the Charge side as paid to Saliah Mahomed Cassim, so that the discrepancy is not merely an omission of equal amounts from each side of the account.

68. These three items, *viz.*, Rs. 7,000, Rs. 3,000 and Rs. 870-11-9, aggregate Rs. 10,870-11-9.

69. The fact that this amount is still outstanding in the Advance statement, bears weight, in the degree to which the accounting of the intervening years (1892 to date) can be relied on, to the effect that the amount has not been accounted for up to date.

70. It may be noticed that though the Advance statement was incorrect, yet it showed an advance of Rs. 5,627-4-9 against the Durbar Bakshi. No attempt was however made during the ten and more years that the amount has been outstanding, to adjust or to recover the money, until quite lately when the Palace Controller wrote to the Civil Comptroller asking for particulars of the amount.

71. The Durbar Bakshi's accounts as received by the Palace Controller would seem to point to the fact that monies advanced to him were not separately secured but kept along with private money. Thus in one instance an error of annas 4 had been committed in totalling the account and a balance in excess by annas 4 was entered to tally the two sides. The amount is certainly small, but I venture to think that, had the cash been separately kept, the error in addition would have been detected. In another instance disbursements exceeded the advances made. The private money used was subsequently refunded.

72. What has happened once may happen again, and through want of proper check private money be used in discharge of Palace expenses, though it is scarcely feasible that any considerable intrenchment on private means would be allowed. In the accounts of the Durbar Bakshi, however, submitted for the advances received for the Bangalore trip of August and September 1891 an amount of Rs. 1,400 is credited. The Civil Comptroller has struck the item off the accounts with the remark—"The difference of Rs. 1,400 shown in the Palace Accounts has not been paid by the Huzur Treasury ..but the difference has to be traced out by the Palace Controller and reported." The matter has ended there, and nothing more is known of this sum of Rs. 1,400. If it was advanced by a Government Treasury, no debit has yet been raised against the Palace, and if it was private money included by mistake, which is improbable, no refund has been made.

73. Again, in March of the same year an advance of Rs. 200 was made to the Durbar Bakshi for the malnad tour. On receipt of the Durbar Bakshi's accounts the Palace Controller credited Suspense and charged the Final heads concerned. The Civil Comptroller remarks in his statement of corrections that "the amount has been credited to Deposits as the nature of the receipt is not known—Palace Controller to enquire and report." There is no trace of any enquiry or report having been made, and it is doubtful whether the necessary debit to the Palace has yet been made.

74. It was reported in my note of the 3rd instant that an excess charge of Rs. 2,138-1-4 seemed to have been made against the Palace. The amount was advanced in connection with the Madras trip of 1888-89. The Civil Comptroller correctly debited the amount to the Palace in 1889-90, but again in the year 1891-92 made a second charge of the same amount. I find, however, that the over-debit was written back in the year 1892-93.

75. Another item of Rs. 20,000 passed through the following process:—It was advanced in the year 1888-89 in connection with the Madras trip and finally adjusted in that year. A second debit was raised in 1889-90, but was detected in the following year, and a credit of Rs. 20,000 was afforded to the Palace. In 1891-92 the mistake was repeated and the charge was debited for the third time. This happened to be again discovered and a second credit of Rs. 20,000 was afforded in adjustment in the year 1892-93. These three successive charges to the Palace were made, it would appear, on receipt of each of the two statements from the Bank of Madras in connection with the two Deposit accounts of the Dewan and again from the Tour account sent in by the Dewan's office, the corresponding credit adjustments in the Provincial books being in the first instance to "Presidency Bank" and in the remaining two to "Advances Recoverable." Though consequently in this case the Treasury balances as shown in the accounts were left intact, it might be remembered that the entertainment in the accounts of double debits of this description might lead to the temporary misuse of Government money.

Akhilandayya's Loan.

76. The accounts have thrown no light upon this. Papers received by me on the 3rd instant were recalled. I received them back again on the evening of the 14th. If there is anything to be noticed, it will be reported later; meanwhile, the present report is at once submitted.

---

(3) Report dated 20th September 1901, on the Loan to Messrs. Akhilandayya & Co.

1. In the month of April 1889 a payment of Rs. 2,00,000 was made at the State Huzur Treasury as a loan to Messrs. C. Akhilandayya & Co. bearing interest at the rate of 6 per cent per annum. Though in the Dewan's official memorandum dated 28th March 1889 authorizing the payment the Comptroller was instructed to obtain a proper receipt from the said company, this was not done. It is explained that Messrs. C. Akhilandayya & Co. having executed a promissory note the receipt was unnecessary.

2. In the month of September 1891 the Palace Controller was authorized by H. H. the Maharaja to receive payment of the amount. Steps were at once taken for its recovery; and on the 23rd of September the sum of Rs. 2,00,000, and the interest thereon for 2½ years amounting to Rs. 30,000, was paid into the Bank of Bombay, and the deposit receipt despatched to the Palace Controller by Mr. K. Dorasami Iyer, partner in the firm of Messrs. C. Akhilandayya & Co. (*vide* his memo of 19th October 1891).

3. The deposit receipt was returned to the Bank of Bombay through the Bank of Madras who were authorized to receive payment of the amount (*vide* Palace Controller's notes of 23rd October 1891 to the Bank of Madras and 24th October 1891 to the Bank of Bombay through the Bank of Madras) to purchase Government paper therewith (*vide* note from Palace Controller of 23rd October 1891), which they did (*vide* Bank's note without number and without date). The paper was endorsed in the name of H. H. the Maharaja, and the safe-custody receipt — No. 97-216 as per margin — obtained from the Bank (*vide* Bank memo No. 918 of 5th November 1891) is now in the hands of the Civil Comptroller.

Safe-custody receipt No. 97-216 for—

No.		Rs.

210341 ...	ditto ...	50,000
084283 ..	4 per cent 1854-55 ..	50,000

084006 ...	ditto ...	20,000
M000444 ...	ditto ...	10,000
	Total ...	2,30,000

4. So far the transactions are clear and supported by reliable correspondence. There remains to be seen to what extent these transactions find place in the Palace Accounts.

5. An amount of Rs. 2,00,000 has been credited in the Palace Accounts of the year 1891-92, in reduction of the balance of outstandings, and it might be expected that this is the representation of the transaction detailed above. It is hard to conceive, however, on what document this credit found entry in the accounts, for nothing is produced, nor is the authority anywhere stated. It might be expected, if the amounts are the same, that the Bombay Bank's deposit receipt would have given the occasion, but this was received by the Palace Controller, while the credit, when made, appears in the Civil Comptroller's Accounts. It could not moreover have been the Madras Bank pass-book, for I find that so late as the 3rd June 1893 the Civil Comptroller wrote to the Palace Controller asking for particulars of the credit which the pass-book showed on this account. There must accordingly have been some other document, and the accounts as they stand merely point to the inference, on the ground—

(*a*) that the amounts are the same;

(*b*) that there was apparently no other source from which a receipt to the Palace to this extent might at the time have been expected;

(*c*) that the accounts of the period enter it (though they do not prove it) as the repayment of the loan to Messrs. C. Akhilandayya & Co.;

that the document did not represent a separate additional receipt of Rs. 2,00,000.

6. The strength of this inference is, I think, fairly conclusive that the credit in the accounts represents the amount received from Messrs. Akhilandayya & Co. If this is right, the result worked out for the Palace in respect of the transactions in connection with the loan is correct.

(4) Report dated 10th October 1901, on the Present System of Palace Accounts.

1. The expenditure of the Palace is accounted for primarily in the offices of the Civil Comptroller, the Palace Controller, and by the Tutor and Governor, the figures of these separate sections being finally consolidated into one statement in the Civil Comptroller's office.

2. Each section, and more especially the office of the Palace Controller, is guided by Mr. Biddulph's instructions issued subsequent to his examination of the accounts in the year 1894.

Civil Comptroller's Office.

3. So far as this particular section is concerned, and apart from the compilation work it is at present required to do, there is nothing to be said. The transactions dealt with are few, and the accounting of the simplest character.

Tutor and Governor.

4. A Monthly Account Current with schedules and vouchers is submitted to the Civil Comptroller. It would be well if the advance transactions were displayed in the body of the account instead of being in the balance as at present. A complete schedule of advances, with the necessary information to admit of this, accompanies the accounts.

5. Miscellaneous receipts on account of the Personal Estate should be paid monthly into a Government Treasury, and not utilized to meet current expenditure, as is now done.

Palace Controller.

6. Mr. Biddulph's Manual of Instructions is on the whole closely followed, and so far as the accounts of this section individually are concerned, there remains little to be desired. A few remarks follow on details, where Mr. Biddulph's Manual or its intention has apparently been diverged from. Afterwards the system under which the accounts of the separate sections are consolidated is dealt with and suggestions for improvement offered.

Mr. Biddulph's Manual. Paras 5 to 9.

7. The Mysore Branch of the Madras Bank having been abolished, these paragraphs are no longer exactly applicable. Cheque payments possible then are now very much restricted.

8. *Remarks.*—Until lately, when the Civil Comptroller stopped the procedure as likely to cause confusion in the accounts, cheques were issued by the Palace Controller on the Mysore Treasury, for larger payments to contractors and other creditors. Confusion was likely, as neither office maintained any check over the transactions. As the Palace Controller sends along with his accounts a statement of the cheques issued during the month, a simple watch over uncashed cheques could be maintained in the Civil Comptroller's office, and this very convenient procedure continued.

Paras 13 and 14.

9. Personal ledger accounts are maintained which are debited on receipt of advice from the Civil Comptroller and credited on issue of cheques or instructions to pay. On receipt of the accounts of firms, credits not already included in the ledgers are afforded, and the whole account sent to the Treasury, where it is embodied in the Cash Book, the transactions passing from thence into the Account Current. The firms submit their accounts at irregular intervals of two and three months as the balances in hand call for recoupment.

10. *Remarks.*—Credits should not be afforded in the ledger until the accounts of firms are received, and then only one entry should be made. This will secure uniformity, will save labor, and will overcome the difficulty now

felt of credit items being entered, when owing to Civil Comptroller's intimation not having been received the ledger account shows no balance with the firm. The record of the balances with firms after each transaction should be maintained on the back of the counterfoils of cheques.

11. The advances to firms having been already once charged off in the Cash Book, the transactions appearing in the firms' accounts are no longer cash transactions of the Palace Treasury and should not be passed through the Cash Book, where they at present cause a fictitious swelling of the monthly totals. The adjustments should be carried out in the Payment and Receipt schedules as directed in the Manual. These are printed forms and should provide space under the head "Adjustments" for these entries, so as to preclude any likelihood of their omission.

12. Firms should be requested to submit their accounts regularly once a month. This, besides being a convenience, will ensure that expenditure is not kept out of the books longer than is necessary.

13. The Cash Books on issue are signed by the Controller, and the balances shown at the end of the month are verified by him.

Paras 15 and 16.

14. *Remarks.*—The pages of the Cash Book should be serially numbered and the Controller should, when it is issued, certify to the number of pages it contains.

15. Voucher numbers, for the entry of which a column is provided in the Cash Book form now used, are not written up; this should be done.

16. The special register mentioned in this paragraph is not maintained.

Para 33.

17. *Remarks.*—Though not a necessity, it would prove a convenience both as a check and a record. It involves, however, the posting of the arrear statements of some fifteen departments, which would be comparatively laborious. The register might, I think, be abandoned.

18. Indents are received in the Controller's office, are checked with the sanctioned scales, and sent on to the Motikhana department, special indents only having been countersigned by the Controller.

Para 35.

19. *Remarks.*—The scales of supply to departments were last revised in 1898. A settled periodical revision would insure an adjustment of the scale, as circumstances warranted, to the actual needs of departments from time to time.

20. The usual monthly indents are not countersigned by the Controller. There would seem no objection to this if, in the first place, the scales are carefully fixed, and then all excesses are submitted for orders. An indent picked up at random from the bundle for April 1901 showed apparent excesses, but orders of the Controller had not been obtained.

21. Larger departments only are supplied with a list of articles contracted for. This should be supplied to all, and the nomenclature adopted in indents should strictly conform to it, to insure the preparation of a correct bill by the Motikhana department.

22. Duplicate books written up in manuscript are used, one being finally handed to the contractor who presents it at the Motikhana department, and the other abstracted into a statement, submitted monthly to the Palace Controller's office.

Para 37.

23. *Remarks.*—Receipts not being furnished to contractors as supplies are made, the way is opened up for complaints. These are occasionally made now, it seems, and settled on the Palace Controller's dictum.

24. As however difficulty was experienced owing to the irregular presentation of separate receipts at the Motikhana department, the use of duplicate

books might continue. Printed books should however be used with pages serially numbered in print. Each pair of duplicate books should have the same book number and the number of pages endorsed on them under the Controller's signature. They should be entered up and signed immediately after delivery has been made, a separate page being used for each delivery. One book will remain with the contractor.

25. Departments hold imprests and submit accounts monthly as a rule.

Para 45.

The Asursala department however receiving advances of Rs. 500 at a time but spending between Rs. 2,000 and Rs. 3,000 a month sends in an account for recoupment every five or six days. Vouchers do not accompany these accounts but are submitted later with a consolidated account sent in by the department at the end of the month.

26. *Remarks.*—The recoupment of the account in this way so frequently is troublesome. There seems moreover no purpose gained by the submission of an account without any vouchers.

27. Unless a cash safe is provided, larger advances would probably prove inconvenient. The separate advances of Rs. 500 might however be made under the orders of the Controller on plain requisitions from the department. One account would then be submitted at the end of the month, checked with accompanying vouchers, and sent to the Treasury for inclusion in the Cash Book. Each advance made during the month, after the first, would be entered up parenthetically in the Cash Book as an addition to the imprest already held.

28. A record of jewelry, bullion, and other stock articles is kept in the Treasury department.

Para 52.

29. *Remarks.*—These records have more the character of note-books than registers. There are no ruled columns, purchases and issues being narrated consecutively as they occur. The entries are gone over at irregular intervals and the balances estimated.

30. Ruled registers should be opened, details of bullion, etc., entered and arranged according to quality, and columns provided for receipts, issues, and balance, with space for the entry of cost and weight under each of these heads.

Paras 69 to 74.

31. These paragraphs are not followed.

32 *Remarks.*—The Stables department issue a yearly report embodying certain statistics. These should be used so far as they go.

33. The issue of each article to the several departments is conveniently stated in the Motikhana department's statements, so that the paragraphs do not involve anything very laborious. The results obtained would be valuable for comparison with those of previous years, and also as an index to any necessary changes in the scales of supply in force.

34. Schedules are prepared, but these make no provision for the name of the department, and no registers are posted from them.

Paras 77 to 87.

35. *Remarks.*—Registers are said to be maintained in the different departments. The Controller has however lately called for copies preparatory to opening a separate register in his office. The column for the name of the department to which purchased articles are handed, should be supplied in the schedule.

36. A Stock Balance Account should be worked out monthly on the back of the Account Current, showing the total opening balance, receipts, issues and closing balance against each department during the month. The receipts would be checked with the entries in the schedule (*vide* para 73 of Manual) and the issues vouched by a list submitted by the Palace Controller, giving number and date of his orders sanctioning the issues. This would insure the Stock Registers being up to date and correct, and would present this balance of stock (value) in the accounts.

Paras 90 and 91.

37. Correct allocation is observed in most cases.

38. *Remarks.*—Expenditure, however, incurred on garden parties at Bangalore and Ooty and all lighting charges at these places are charged under

"Tours." Suitable sub-heads should be opened under the departmental heads "Palace at Bangalore" and "Palace at Ooty." These heads would also include other appropriate charges which at present are charged to "Supplies," "Mysore Palace."

Paras 93 to 95.

39. At present three accounts are kept—a ledger account for each advance; a statement in which each advance is shown separately with recoveries during a quarter; and another abstracted from the latter for submission to the Civil Comptroller.

40. *Remarks.*—This is rather an elaboration of work. Ledger accounts should be kept for loans and all advances to firms and for departmental advances. In other cases where usually only one transaction occurs in the month against each advance the account specified in para 95 of the Manual should be maintained.

Consolidation of Palace Accounts.

Present system.

41. It is usual on principle to settle accounts divisions, not according to the places at which disbursements and receipts occur, but according to the separate authorities under whose orders the expenditure to be accounted for is incurred; and the accounts of each division, accordingly, should represent the total expenditure which has been incurred under the orders of any one such authority, though it may happen that no portion of it has been actually paid out of cash placed for the use of the division.

42. Except where the transactions are of the simplest character and recur month after month without change, any other arrangement must be productive of as great a confusion in accounts work, as the overlapping of executive divisions would be in executive work, for it is as impossible for one division to account for expenditure authorized by another as it is for it to build a bridge correctly when not in possession of the authorized plans.

43. Yet the Palace Accounts have been divided, so far as the Palace Controller and Civil Comptroller are concerned, according to the places at which disbursements and receipts occur, those at the Palace Treasury being booked by the former and those at Civil Treasuries by the latter, though in respect of all these transactions there is but one authority—the Palace Controller.

44. That there is not confusion in the accounts is attributable not to the system, but to the fact that the disbursements at Civil Treasuries are of the simplest character and recur month after month with very few changes. It is however noticeable that about the only fresh transaction which occurred in the accounts for the month of April 1901, which were examined in connection with this report, being a recovery authorized by the Palace Controller but paid into Hassan District Treasury—was wrongly taken to account by the Civil Comptroller as a miscellaneous receipt creditable to the Personal Estate, instead of as a "Deposit" repayable at a future date. It is moreover not surprising that double debits, such as that referred to in Comptroller's No. 284-42 of 11th July 1901, and communicated to me in General Secretary's No. 310 of 19th August 1901, come to be made.

45. Besides this, which is of course the main point, the representations of "Remittance" transactions which it is certainly desirable should appear in as simple a form as possible, are swelled threefold by this division of the Palace Accounts into three sections, and the elaborated figures of the monthly consolidated abstract do not conduce to the simple representation in the accounts of the month, which the simple transactions of the Palace warrant that they should.

46. If, moreover, the disbursements of the Palace, which, as already stated, are immediately authorized by the Palace Controller only, are treated on a system which usually applies to the case where expenditure is incurred, necessarily under the orders of two or three separate authorities, the time which is taken up in the audit and consolidation of the latter, must also elapse before the monthly account of the Palace issues. It is now received by the Palace Controller two or two-and-a-half months after the period to which it relates.

47. Finally, the accounts having been compiled and issued, the primary statements and vouchers lie distributed between three offices, each one of which is able to give an insight, in detail, only into that portion which it has actually accounted for. A subsequent reference to the accounts, either for the purpose of examination or information, is not as convenient as it might be.

48. In view of these points the suggestions for the improvement of the present system embodied in the following paragraphs are made. What is aimed at accordingly is—

(*a*) the accounting of all expenditure by the authority under whose immediate orders it is incurred: this authority, in the case of the Palace disbursements, is the Palace Controller;

(*b*) a simple representation of remittance transactions;

(*c*) as early an issue as possible of the compiled Account Current figures, which is very necessary for budget purposes;

(*d*) a more convenient distribution of the records relating to the Palace Accounts, so as to facilitate reference or subsequent examination.

(*a*) Palace Controller to account for expenditure.

49. The Civil Comptroller at present compiles his portion of the Palace Accounts on statements of receipts and disbursements submitted, with accompanying vouchers, by the several Civil Treasuries at which items of Palace expenditure or receipt have occurred during the month. The submission of these statements to the Palace Controller, who immediately authorizes, and is in a position to know details in connection with, all receipts and payments at Civil Treasuries, is essential, if the accounting and compilation of the Palace Accounts are to be satisfactorily accomplished.

50. On receipt of these Civil Treasury statements, the Palace Controller's office will deal with them and with the accounts submitted by the Palace Treasury as follows:—

CASH TRANSACTIONS.

51. There will be no alteration in the present procedure in connection with these transactions, so far as this procedure extends. The Palace Treasury will compile a monthly account for submission to the English office, where it will be checked as is done now.

52. This having been completed, it will be posted under the appropriate heads into the allocated Abstract of Receipts and Charges against the space provided, as in the form attached.

ADJUSTMENTS.

Firms' accounts.

53. These accounts having undergone check and having been posted into the ledgers, as at present, will be carried into the allocated abstracts, where the total of each account will on the Receipt side be credited under the head "Miscellaneous Advances" in reduction of the balance shown in the heads of the firm concerned, and on the Charges side be distributed under the expenditure heads "Supplies," "Purchases," etc., to which the separate items of expenditure belong.

Receipts and payments at Civil Treasuries.

54. The monthly lists received from Treasuries will be checked with the accompanying vouchers, etc., in the Palace Controller's office.

55. This having been completed, the receipts on account of the Palace, shown in each Treasury list, will be posted into the allocated Abstract of Receipts under the heads "Interest," "Deposits," etc., according to the account on which they were received. The total of the receipts will be entered on the Charges side of the allocated abstract under the head "Remittances."

56. The payments shown in the Treasury lists will include—

(*a*) Palace cheques cashed.

(*b*) Other payments on account of the Palace.

57. Cheques issued by the Palace Controller having been already included in the Palace Treasury Cash Account, no further entry must be made on account of (*a*). The necessary tally in connection with uncashed cheques will be dealt with later on (*vide* para 65).

58. The payments under (*b*) shown in the lists will be entered on the Receipt side of the allocated abstract under the head "Remittances" and be distributed on the Charge side under the appropriate heads "Pensions," "Supplies," "Maramat," etc., to which the separate items of expenditure belong.

Receipts and payments by Civil Comptroller.

59. Any debits or credits against or for the Palace appearing in the Provincial books, on adjustments made in the Civil Comptroller's office, will be advised to the Palace Controller, as Civil Treasury transactions are advised, and they will be posted into the allocated abstracts in precisely the same way, *viz.*, the credits will be entered on the Receipt side under the heads "Interest," "Deposits," etc., to which they belong, and on the Charges side under the head "Remittances:" debits will be posted on the Receipt side under the head "Remittances" and on the Charges side under the appropriate head "Pensions," "Maramat," etc., to which each debit appertains.

Receipts and payments by the Tutor and Governor.

60. The Tutor and Governor draws funds independently of the Palace Treasury, is the immediate authority for expenditure incurred, and his office is accordingly the correct place for the accounting of such expenditure.

61. To enable the Palace Controller, however, to submit an account monthly embodying the entire receipt and expenditure of the Palace, the Tutor and Governor will, at the time he submits his monthly account to the Civil Comptroller, send a copy of the Account Current only to the Palace Controller.

62. On receipt of this in the Palace Controller's office, it will be posted under the appropriate heads into the allocated Abstract of Receipts and Charges against the space provided as in the attached form.

The allocated abstracts.

63. These will now be totalled for the month and up to date. The compilation of the accounts of the month will then be practically completed and the usual statement of budget grants, expenditure and unspent balances can be prepared and submitted for the information of H. H. the Maharani. For submission to the Civil Comptroller, there remain to be written up—

(*a*) the necessary Schedules to accompany the Account Current;

(*b*) the Account Current.

Schedule A.—Cheques on Government Treasuries.

64. This Schedule gives details working up to the total in the allocated abstract of all cheques drawn by the Palace Controller on Government Treasuries, either for recoupment of the Palace Treasury balance or in payment to contractors and other creditors (*vide* form attached).

65. The entries in this Schedule will differ from those of the Monthly Treasury Lists by the amount of uncashed cheques. The entries on the back of the form provide for a simple tally month by month between the Palace and the Civil Treasury figures and for a continuance of the convenience of cheque-payments where possible.

Schedule B.—Miscellaneous Income.

66. This shows details working up to the total of the allocated abstract of the miscellaneous income of the Palace for the month, according as recoveries are made in the Palace Treasury, in Civil Treasuries, and by the Comptroller's office, or by the Tutor and Governor. The entries at the foot of the Schedule provide for the representation separately month by month of the total amount to date at credit of the Palace on this account in Government Treasuries and with the Palace (form attached).

SCHEDULE C.—REMITTANCES CREDITED.

67. This shows details under each Treasury, etc., at which payments on account of the Palace have been made, working up to the total of the allocated abstract. The entry of the head debited is also provided for in the Schedule, so that the disposal of each item is traceable. The total of Schedules A and C represents the amount expended during the month against the Civil List grant of the year.

SCHEDULES D AND E.

68. Schedules for "Miscellaneous Advances" and "Deposits" are now in use. The form however of the "Deposit" schedule is inconvenient and should be revised. The most suitable form, and that usually used for the representation of Deposit transactions, is attached.

SCHEDULES F TO N.

69. These Schedules give details of charges against each expenditure head during the month. The forms were for the most part settled by Mr. Biddulph after his examination of the Accounts. The totals of Schedules D to N work up, of course, to the respective totals of the allocated abstract.

SCHEDULE O.—REMITTANCES DEBITED.

70. This shows details, working up to the figure of the allocated abstract, of the debits to this head during the month. Necessary provision for the entry of the head credited in each case has been made in the Schedule.

71. The writing up of the Schedules having been completed, the totals will be carried into the Account Current.

(*b*) The Account Current.

72. At the back of the Account Current the following two statements will remain to be written up:—

(*a*) Stock balance statement;

(*b*) Civil List balance statement.

73. At present the balance of stock held in departments does not appear in the accounts at all. Statement (*a*), besides doing this, will maintain a continual check on the Stock registers and ensure their accuracy. The statement will be posted from the register of the Controller's office (*vide* paras 35 and 36).

74. In Statement (*b*) the unexpended balance of the Civil List to the end of the month for which accounts are submitted is presented.

75. The Palace Controller having signed the Account Current and Schedules, and the necessary vouchers having been attached, the accounts of the month are ready for submission to the Civil Comptroller's office.

CHECK IN CIVIL COMPTROLLER'S OFFICE.

76. So far as the transactions of the Palace Treasury are concerned, the check will be the same as that now exercised.

Cash transactions.

77. The Civil Treasury Accounts Current will show only a total debit against or credit in favor of the Palace and there will be no accompanying statements. The mutual check of these figures and of the Palace Account will be carried out on the basis of the entries in Schedules A, B, C and O, and the vouchers submitted with them.

Transactions at Civil Treasuries, etc.

78. The accounts of the Tutor and Governor after check as at present will be attached in the Civil Comptroller's office to the Palace Controller's Monthly Account as a voucher in support of the figures incorporated by him (*vide* para 62).

Tutor and Governor's Account.

79. *Results.*—The Accounts being thus prepared in an office authorizing, and consequently acquainted with the details of, all transactions, the procedure outlined above will secure correct accounting. The check, moreover, and supervision at present exercised by the Civil Comptroller's office will remain

undisturbed. This check can be relaxed or made more rigid according as it is decided to restrict or to amplify the information on which he is to conduct his audit.

(*b*) Remittance Transactions.

80. So far as these are concerned, the modification results in as simple a representation in the accounts as possible; a single accounting office necessarily doing away with the duplicate entry in the accounts resulting from remittance transactions taking place between any two of the three accounts divisions now in existence.

(*c*) Issue of the Account Current.

81. The Civil Treasury lists should be submitted so as to reach the Palace Controller's office by the 10th of the succeeding month at latest. The Tutor and Governor's account now issues by the 20th of the succeeding month. His expenditure is small, and, at any rate, it should be possible for him to communicate his Account Current figures by the 15th of the succeeding month. The consolidated Account Current embodying the whole receipt and expenditure of the Palace for the month, will then issue by the 20th of the month succeeding that to which it relates, or a whole month or month-and-a-half earlier than it now does. The comparison with budget grants will have issued before this (*vide* para 63).

(*d*) Records of the Palace Account office.

82. The Palace office will be in a position to supply detailed information in connection with all Palace expenditure and receipt (except that of the Tutor and Governor, which is small) and will record all documents in connection with it. Those submitted to the Civil Comptroller being filed by him, as they are received, in account form, are at once conveniently available for reference in the future.

Extent of Change involved.

83. The modification in system based upon the submission of the monthly lists of receipts and payments at Civil Treasuries to the Palace Controller instead of to the Civil Comptroller is small, as the transactions at Civil Treasuries are few, amounting in all in the month of April 1901 to 59 items of receipt and payment as follows:—

Huzur	Treasury	..	..	..	21 items.
Mysore	„	..	..	..	23 „
Hassan	„	..	..	..	2 „
Bangalore	„	..	..	..	4 „
Tumkur	„	..	..	..	8 „
Kolar	„	..	..	..	1 „

84. An Account Current and Schedules compiled on this system and displaying the transactions of the month of April 1901 are attached.

Additional Remarks.

85. In the above paragraphs on the system of Palace Accounts care has been taken to present only such changes as are the necessary results of the modification proposed. A few remarks in connection with paras 15 to 17 of Mr. Biddulph's Manual are added.

86. The Palace Treasurer maintains a complete set of accounts, compiles at the end of the month an Account Current with schedules and vouchers, and submits them to the English office. The English office checks this compilation, which is in Kanarese, and copies it in English for submission to the Civil Comptroller. On being received in this office, the compilation is again checked with schedules and vouchers and finally incorporated in the monthly abstract.

87. As all payments at the Treasury are made under orders of the Palace Controller, a complete set of accounts are necessary in his office. These are kept in English, being copies more or less of the accounts maintained in the Treasury.

88. This procedure involves two compilations of the same figures (for the English office makes a copy) and two checks, and also the upkeep of duplicate sets of books in the English and Treasury departments of the Palace Controller's office; whereas the Treasury Cash Book comes under no detailed check, direct or indirect. The balance, it is true, is verified with the cash in hand at the end of the month, but no inference can be drawn from the figures of a compiled account or from such a verification of the balance, to the effect that the Cash Book is correct.

89. Civil Treasuries do not go to this extent in compilation work—plain lists of payments being submitted to the Civil Comptroller, who does this. With the Palace Treasury, where only cash transactions occur and where all payments are made under the orders of the Palace Controller, it would, I think, be quite sufficient for the Treasurer to send his cash sheet, with the allocation entered against each item in the remarks column, daily or at longer intervals, as is found convenient, to the English office, which is next-door. The English office would check the cash sheet with the accompanying vouchers, post the subsidiary accounts (one set being maintained in this office and none in the Treasury) and compile the figures into Account Current form for submission to the Civil Comptroller as usual.

90. This procedure would involve considerable saving in time and labor—all the clerks at present employed on compilation work or accounts work in the Treasury department, other than the writing up of the Cash Book, being available for employment in other departments, while very little, if any, extra work would be thrown on the English office, who, already under the present procedure, check the compilation and copy it out. More important than this however would be the detailed check which would then be exercised on the Treasury Cash Book. In other respects, the results would be quite as satisfactory as now,—the Treasury having no use either for compiled Account Current figures or for a set of accounts as now maintained.

No. Fl. 706—8, dated Bangalore, 20th November 1901.

Order thereon.—The attention of the Comptroller, Mysore Government, and of the Palace Controller is invited to the various matters of criticism noted in the second of the reports read above. Such errors as are still uncorrected and now capable of rectification, should be corrected. The suggestions made for improvement should either be adopted in future, or explanation on each point should be furnished to show why such a course cannot be taken. Some of the more important matters requiring notice are mentioned below.

2. It should be explained whether the over-credits noticed in paras 7 and 8 of the report have been since adjusted, and whether the Bank Memos and Register of Bonds referred to in paras 10 and 11 have been found. Attention is also called to the unintelligible entries in the Registers for the year 1891-92, and the consequent difficulty which Mr. Scott felt of checking them with the accounts.

3. Proper explanation should be afforded for the recoveries noticed in the accounts of 1891-92 (para 12), and it should be stated by the Palace Controller and Government Comptroller, whether the particulars have been since traced, and final adjustment effected.

4. The acceptance of charges by some responsible authority before payment is of course an indispensable precaution, and it is strange if this has not been insisted on hitherto as noticed in paras 16 and 25. The Palace Controller should explain how the risk of wrong payments is guarded against in such cases; and the Government Comptroller, on what authority such vouchers are accepted as sufficient for passing charges. A similar observation has to be made

in respect of charges for which (in cases in which vouchers have, according to the rules in force, to be sent up to the auditing authority,) vouchers are not forthcoming in the Government Comptroller's office (para 19). The confusion noticed in para 21 as to whether the payments made relate to the Palace or to the State is serious and requires to be guarded against in the future.

5. The remarks in paras 29 to 33 concerning treatment of the Palace balances, should be borne in mind. The excess payment referred to in para 29 from Provincial Revenues, which resulted in an apparent balance of more than two lakhs being shown in favour of the Palace, though inadequately explained, should not have been allowed. A report should be made by the Comptroller as to how far the remarks made are applicable to the present state of this account, and whether any action with reference to them is now called for. Investments for the benefit of the Personal Estate must be steadily kept in view and not allowed to lie over for years, the necessary reports being promptly made and orders obtained. Attention is called to the correct drawing up of the Note book of the Personal Estate as pointed out in para 37.

6. It is presumed that the unnecessary delay in making adjustments, and the apparent defects noticed in paras 40 to 43 are only exceptional instances, and that the necessary corrections have since been carried out. Such delays as are noticed in para 40 should not be allowed to recur. The item of Rs. 1,980-8-0 referred to in paras 41 to 43 requires further investigation and report.

7. Certain minor defects mainly of procedure in the Palace Controller's Department are noticed in paras 44 to 50. Money received in deposit should not have been wrongly used for current expenses as mentioned in para 46. It is expected that these defects will be removed by the adoption of suggestions for improvements noticed further on. Instances like that mentioned in para 54 should not be allowed to recur.

8. It is not satisfactory that the Palace account of advances should have been kept in such a manner as not to allow of the personal account of each debtor being ascertained easily and without recourse to fresh calculation (para 56). The Controller should get this important statement made up as early as possible and submit a detailed report in three months.

9. The succeeding paragraphs of this report show that the manner in which these transactions have been dealt with in the Government Comptroller's office has been even more unsatisfactory. If the sums mentioned in para 58 are capable of final adjustment, this should be effected at once and a report submitted explaining why they have been held so long in suspense, and the original authority for each adjustment.

10. A sum of Rs. 10,870-11-9 appears to be outstanding against Mr. A. Narasimhaiengar, the pensioned Durbar Bakshi. The Comptroller has been showing Rs. 5,627-4-9 only in his statements; but it is apparent from the present report that Rs. 5,243-7-0 shown against Messrs. Woodville & Co. should also be transferred to this account. It is certainly strange that the Comptroller should all these years have taken so little notice of this large sum standing unadjusted against a retired officer. The provisions of Article 26 (2), Chapter III of the Civil Account Code, if nothing else, should have shown that it was incumbent on the Comptroller to take steps towards the recovery or other adjustment of this sum. The Government Comptroller will now be good enough to explain why only the smaller amount appears in his accounts, what steps he has taken towards adjustment, and at once call upon Mr. A. Narasimhaiengar to account for the said amount, and adjust it finally without further delay.

11. A special report should also be made by the Palace Controller and the Government Comptroller concerning the sum of Rs. 1,400 referred to in para 72 and Rs. 200 referred to in para 73. The action of the Comptroller is perfunctory. He ought to have seen to the final settlement of these amounts. It is to be

regretted that such irregularities as are referred to in paras 74 and 75 should have been allowed to occur in the Comptroller's office. The lax procedure, which might lead to the temporary misuse of Government money, should have been guarded against and prevented. Remarks made in paras 13 and 14 of the first report and in paras 3, 17, 18 and 19 of the second report refer to double charges, credit and debit under wrong heads, want of vouchers, and other defects and point to the loose manner in which the accounts seem to have been kept.

12. Such an important transaction as that connected with the loan to Messrs. Akhilandayya & Co. finds no direct mention in the accounts of either the State Comptroller or the Palace Controller, which could be referred to without any undue difficulty; that it should be capable merely of being inferred, however conclusively, is not a matter for satisfaction. The Government, however, note that in the opinion of Mr. Scott, which is accepted by Government, the strength of this inference is fairly conclusive, and that the credit in the accounts represents the amount received from Messrs. Akhilandayya & Co. Mr. Scott also adds that "if this is right, the result worked out for the Palace in respect of the transactions in connection with the loan, is correct." Non-compliance with a positive direction to obtain a receipt referred to in para 1 of the third report, is not commendable.

13. The Palace Controller will take steps to carry out the suggestions made by Mr. Scott in the report on the system of the Palace accounts, for adopting the instructions laid down by Mr. Biddulph, as a result of the special audit. Advance and Suspense Accounts must be properly kept. Attention is called to paras 20 to 23 and to the observations and suggestions made in paras 41, 44 and 48. If the Controller should consider that any of these suggestions, whether made by Mr. Scott or by Mr. Biddulph, requires modification, he should submit a detailed report for the orders of Government. The modifications required in the system of accounts and the transaction of business to carry out these rules, should be brought into force from the 1st of January next.

14. Government take this opportunity to place on record their appreciation of Mr. Scott's work and the despatch shown by him in carrying it out.

EXCISE

Proceedings of the Government of Mysore,

READ—

Correspondence ending with Excise Commissioner's letter No. 2509—110, dated 5th—8th October 1901, *re* the refund bill for Rs. 10-10-0 being the amount of one-third portion of the tree-tax on 30 trees applied for by Sannegauda, licensee of the Attigundi toddy shop, Chikmagalur taluk, for the year 1900-01, and stating that the refund is recommended as the licensee did not tap the trees owing to some dispute having subsequently arisen between himself and the owner of the trees whose countersignature to the application for the trees had not been secured as required by the Rules.

No. 7212-21—Ex. F. 18-98, DATED BANGALORE, 6TH NOVEMBER 1901.

ORDER THEREON—The refund bill submitted with the above is sanctioned with the observation that the omission on the part of the local authorities to refuse to take action in the absence of the countersignature, required by the Rules, of the owners of the trees in question, was culpable and should have been guarded against. In such important matters as this, a strict adherence to the Rules should be enjoined on all Officers concerned.

Letter No. 2909—127, dated 25—26th October 1901, from the Excise Commissioner in Mysore, submitting a refund bill for Rs. 88-8-8, being one-third of the tree-tax on trees which were not utilized by the Toddy Contractor Obalegauda of Marikanave firka for the year 1900-01, and recommending the remission of the balance of tree-tax, *viz.*, Rs. 177-1-4, which has been brought under demand for the year.

No. 7755-64—Ex. F. 18-98, DATED BANGALORE, 19TH NOVEMBER 1901.

ORDER THEREON.—Obalegauda, Contractor of Marikanave and five other toddy shops, all forming a group, applied for 250 trees in the Bharmagiri groves for the supply of toddy to his shops. The application for trees with the necessary certificate of the Inspector and one-third portion of the tree-tax, as required by the rules, were presented to the Amildar of the Chitaldrug taluk, who transmitted the same to the Hiriyur taluk, to which the shops and groves in question belonged. The application was finally rejected by the Excise Supervisor with the permission of the Divisional Officer, on the ground that the Bharmagiri groves were not assigned to any of the above shops during that year. The Abkari Inspector who certified to the correctness of the entries in the application explained that he relied upon the particulars of the schedule attached to the sale Notification of the previous year found with the contractor as he had not then with him a copy of the Notification for the year 1900-01, and even this statement is not correct.

Under these circumstances the refund recommended is sanctioned with the observation that the Government are unable to see why the egregious blunder made by the Excise subordinate concerned, which has necessitated all this correspondence and trouble, could not have been avoided, and they hope that in future, such erring officials will be held personally responsible for making good sums required for refunds of this description. The remaining two-thirds with interest will be written off the accounts as proposed.

Secy. to Govt., Gen. & Rev. Depts.

Letter No. 2337—122, dated 13th October 1901, from the Excise Commissioner in Mysore, submitting a brief report on the results of the sales of arrack vend farms and separate shops in all the districts of the State for the year 1901-02, and stating that the detailed statement referred to in Government Proceedings No. 6958-67—Ex. 341, dated 7th March 1901, will be forwarded.

No. 8072-81—Ex. F. 4-1900, DATED BANGALORE, 27TH NOVEMBER 1901.

ORDER THEREON.—It is seen from the abstract appended that there was a net decrease of Rs. 59,080, as compared with the previous year's rental, both under "Arrack vend farms" and "Separate shops." The decrease under separate shops was general in all the tracts except in the City of Mysore and the towns of Tumkur and Hassan where there was a slight increase, which calls for no special remark. The heavy decrease of Rs. 34,022, which occurred in the Kolar Gold Fields is reported to be due to the reckless bids offered in the previous year and the consequent losses sustained by the licensees of that year. In the Bangalore City it was due to the fall in the consumption of arrack owing to plague, high prices of food grains and export of grain to the famine-stricken parts in British India, while in the towns of Chikmagalur and Shimoga, the main causes of decrease were the continued depression of the coffee industry and the outbreak of plague.

2. The decrease under "Vend farms" which occurred in all the districts except Bangalore and Kolar is attributed chiefly to the unhealthy competition and the consequent losses sustained in the previous year as well as to the adverse season, plague and cholera.

3. The detailed statement promised in the above is awaited.

Letter No. 2836—121, dated 16th October 1901, from the Excise Commissioner in Mysore, forwarding a brief report on the results of the sales of date and bagani toddy shops in all the Districts of the State for the year 1901-02, as compared with those of the previous year.

No. 8082-91—EX. F. 5-1900, DATED BANGALORE, 27TH NOVEMBER 1901.

ORDER THEREON—From the abstract appended it is seen that there was a net decrease of Rs. 1,26,786-3-3 as compared with the previous year's rental both under date and bagani toddy shops. The decrease under date toddy was heavy and general in all the Districts except Bangalore and Tumkur where there was an increase of Rs. 12,760 and Rs. 6,892, respectively, which is attributed to keen competition between the local bidders and those from British Territory. The heaviest decrease of Rs. 67,474-3-3 occurred in the Mysore District. The chief causes which contributed to the heavy fall in the Districts of Mysore, Kadur, Shimoga and Chitaldrug are reported to be the prevalence of plague and cholera and the consequest loss sustained by the licensees of shops in the year 1900-01 as well as the continued depression of the coffee industry. The small decrease of Rs. 7,063 in the Kolar District is attributed to the paucity of date trees in the District. No reason is assigned for the appreciable decline of Rs. 14,468 in the Hassan District.

2. The decrease under bagani toddy shops occurred in all the Malnad Districts of Shimoga, Kadur and Hassan, amounting to Rs. 3,308-8-0, and is ascribed to the absence of competition owing to unfavorable season.

3. The Excise Commissioner reports that against the net decrease of Rs. 1,26,786-3-3, a sum of Rs. 91,259-11-6 is expected to be derived under tree-rent, the levy of which was introduced for the first time in the year under report.

PETITION

Proceedings of the Government of Mysore,

READ—

Petition of Appeal No. 88 of 1901-02 from Channamallaiya, son of Sanganna of Kittenalli, Nelamangala Taluk, against the order of the Deputy Commissioner, Bangalore District, directing the sale by public auction of a site adjoining the appellant's house and shop.

(2) Letter No. D. 251, dated 26th August 1901, from the Deputy Commissioner, Bangalore District, reporting on the above.

(3) The records of the case.

No. PET. 1003-10, DATED BANGALORE, 22ND NOVEMBER 1901.

ORDER THEREON.—In April 1889, one Channappa complained to the Amildar that the appellant was in unauthorized enjoyment of the site in question, that his ancestors had kept a water-shed on the site some years previously and that the site which was Government land might be placed at his disposal for keeping a water-shed during the summer. In the enquiry that followed, the appellant stated that the site had been purchased by him from one Nanjundaiya in 1876. The Amildar reported to the Assistant Commissioner that the site was shown in the village accounts as Government waste, but recommended that as the site adjoined the appellant's house and shop, it might be granted to him for an upset price of four annas per square yard. The Assistant Commissioner in charge of the taluk accepted the recommendation and the site was accordingly made over to the appellant. On the appeal of Papi Raddi, son of Channappa, who offered to pay double the amount paid by the appellant, the Deputy Commissioner directed the sale of the site by public auction. Before this order was carried out, however, it appears from the records that the appellant has begun building on the site.

2. In the above circumstances Government consider that the grant to the appellant for an upset price was proper and the Deputy Commissioner was wrong in directing its sale by public auction. This order will, therefore, be reversed and that of the Assistant Commissioner restored.

Secy. to Govt., Gen. & Rev. Depts.

FOREST

Proceedings of the Government of Mysore,

READ—

Correspondence ending with the following letter No. 137, dated the 26th August 1901, from the District Forest Officer, Mysore, to the Conservator of Forests.

In reply to your letter No. 50[illegible], dated 5th instant, I have the honour to submit herewith for your approval as desired draft rules for the grant of licenses for timber and other forest produce.

(2). These rules are designed to afford facilities to consumers and purchasers of forest produce, who at present are put to great difficulties, inconvenience and expense in having to travel 20 or 30 miles to obtain licenses for cutting and removing any produce they may require either for domestic consumption or trade. For example, an inhabitant of Mysore or Seringapatam in need of a cart-load of firewood or bamboos has to march all the way to Heggaddevankote, a distance of 32 or 40 miles, or to Hunsur, a distance of 30 miles, before he can secure a license. His troubles do not end on reaching his destination, for he may have to wait there a day or two if the treasury happens to be closed or the Range Officer or Forester to be absent. In the same way a raiyat on the borders of Coorg wanting a few bamboos or wood for agricultural implements or to repair a broken cart has to travel all the way to Hunsur, a distance of 28 miles, in order to obtain a license although the State Forests are at his door. The consequence is that people either steal the materials they require or go to the Coorg or Malabar forests with the result that this Government is deprived of a most legitimate source of revenue.

(3). There has been an improvement in the state of affairs described in the preceding para since the orders promulgated in Government Proceedings No. 2907-16—Ft. F. 16-96, dated 5th October 1899, but as the number of Forest officers who can be entrusted with the vending of licenses is small and as their duties do not permit of their remaining at their head-quarters for more than a few days in a month, the facilities provided for obtaining licenses by this order have been found to be inadequate.

(4). The draft rules have been based mainly on the rules and practice obtaining in the Madras Presidency and the Central Provinces, where they have been found to work well. The object aimed at there is to establish an agency for collecting forest revenue distinct from and independent of the executive and protective staff. The reason of this is obvious and needs no explanation.

(5). According to the proposals now submitted, license vendors will be appointed at all large villages and towns on the borders or in the vicinity of all State and District Forests, who will generally be permanent residents of them. Their services for issuing licenses will be available at all hours of the day.

(6). The form of license used at present appears to be unsuitable as it does not provide sufficient space for noting the full particulars of the number or quantity, rate and value of the produce sold. Moreover, these forms except grazing licenses are in duplicate, so that when the license is recovered by the checking officer, the purchaser possesses no document to show how he has come by the produce. I therefore submit herewith sample forms of licenses to be used under these rules. It will be seen that I have provided for the use of paper of distinctive and different colours and this has been done with a view to enable licensees and recovering officers to see at a glance for what kind of produce the license has been issued.

(7). The proposed agency for recovering licenses is practically the same as at present, with this difference, however, that firewood licenses are now checked by a class of commission agents styled kamaishdars who receive a commission of 12½ per cent on the value of licenses recovered. I propose to do away with this class of men and to appoint forest guards at all important trade routes, not only for checking firewood licenses, but all kinds of licenses. Not more than two or three men will be required for this purpose in each Range, and these I can spare from the establishment sanctioned for the district. If experience shows that this provision is insufficient, we could supplement them by a few temporary hands. The proposed rule regarding check and recovery of licenses by patels is simply a modification of that now in force, *vide* Rule V. of the Subsidiary Rules framed under Section 26 of the Forest Rules of 1878, issued in Notification No. 198, dated 21st September 1889, and printed at page 14 of the Forest Manual; but the patels in future will check produce not only from the District Forests but also from State Forests. The extra labour involved by this, however, will be very slight.

(8). At present no accounts are being rendered of the receipt and issue of license books, nor are the counterfoils returned to the issuing office. Thus no one knows whether all the revenue realised by the sale of licenses has been credited into the treasury. This, it will be admitted, is a very unsatisfactory state of affairs. Every license book issued from the District Forest and Range offices should be properly accounted for. With this view I have prescribed a number of returns, the preparation and submission of which will

not tax, to any appreciable extent, the intelligence of either Range Officers or license vendors, while they will facilitate the inspection of Range offices and license vendors' accounts and render the commission of fraud difficult, if not impossible.

(9). A map illustrating the stations at which license vendors and special checking officers will be stationed as well as the head-quarters of the forest officials is appended in order to enable you to judge at a glance whether the provision made for issue and check of licenses is sufficient or is in excess of requirements.

(10). In conclusion, I beg to request that early sanction may be accorded to these rules and to the supply of new license forms in order that they may be brought into force as early as possible. They will be introduced at first in the Hunsur, Heggaddevankote and Gundlupet Ranges, and, if found to work well, will be adopted generally throughout the district.

2. Note dated 9th September 1901, by the Conservator and Secretary to Government, Forest Department.

No. 330-39—1752-61, DATED BANGALORE, 8TH NOVEMBER 1901.

ORDER THEREON—The proposals submitted by the District Forest Officer of Mysore, and substantially concurred in by the Conservator, have had the most careful consideration of Government. The system is, to a large extent, based upon experience gained elsewhere by Mr. Muthannah. What is chiefly aimed at is the provision of facilities for people wishing to draw upon Government forest resources without the great circumlocution and delay which at present are inevitable and which drive them to other and readier sources of supply. The license forms now in use are too elaborate, while those proposed seem simple and suitable. The village officers are naturally prone to be indifferent in the execution of work which they consider does not legitimately pertain to them: and a small commission would, therefore, be as much a boon to them as an incentive to their taking a lively interest in the matter. People are at present put to much inconvenience which, under the new scheme, will probably be obviated. Lastly, the new rules regarding the issue of license books are calculated to operate as an efficient check against the perpetration of frauds which at present seem quite easy. Mr. Muthannah is confident that the scheme will be a success in every way, and he cites, in support of his opinion, the results achieved in several places in British India. It is doubtful, however, whether the commission offered is likely to tempt respectable people of the mercantile or other intelligent classes to offer their services. Government accordingly direct that the commission to be paid may range between a minimum of $6\frac{1}{4}$ per cent and a maximum of $12\frac{1}{2}$ per cent. In all other respects the proposed rules are tentatively approved by Government. At the outset they will be introduced for a period of one year into the Ranges of Gundlupet, Heggaddevankote and Hunsur of the Mysore district, and Mr. Muthannah himself will be charged with their execution. The rates of commission within the limits stated above will be fixed at the discretion of the District Forest Officer, but recourse to a higher rate than $6\frac{1}{4}$ per cent will be cautiously and sparingly had, as both the District Forest Officer and the Conservator seem to think that that rate is quite adequate. The Amildar will be included in the list of license issuing officers in Rule 7 as suggested by the Deputy Commissioner. An *ad interim* report after six months' trial will be submitted for the information of Government.

2. The rules and the license forms as approved by Government with marginal remarks thereon by the Deputy Commissioner are appended to this order. Arrangements for printing licenses and registers will be made at the Branch Press, Mysore, under the directions of the District Forest Officer.

RULES FOR THE GRANT OF LICENSES FOR TIMBER AND OTHER PRODUCE.

For all timber and other forest produce sold otherwise than from forest or sale depots, a prepaid license must be obtained from persons authorized to grant it before any of the aforesaid produce can be cut, collected or removed by the purchaser.

2. License forms will be in books containing 50 forms in each in triplicate and shall be supplied only by the District Forest Officer. The forms should bear two printed numbers,—one book number and the other serial license number as in Forest cheque books. The former shall run on continuously for each kind of license not changing with the year and the latter serially from 1 to 50. Such licenses should also bear the stamp of the District Forest office.

3. Licenses will be of seven kinds as detailed below :—

1.	For timber of reserved kinds ...	Printed on white	paper.
2.	For timber of unreserved kinds ...	Do yellow	do
3.	For firewood and charcoal ...	Do red	do
4.	For bamboos	Do blue	do
5.	For grazing	Do green	do
6.	For minor forest produce ...	Do brown	do
7.	For general	Do rose	do

4. All license books will be supplied from the Stationery office, Bangalore, on indent, the District Forest Officer submitting an abstract statement of receipts, issues and balances in hand in Form A.

5. The District Forest Officer will supply the license books to issuing officers either direct or through the Range Officers on indent which should be accompanied by a statement in Form A.

6. An account shall be kept by the District Forest Officer and Range Officers of all license books received and issued in Form B and of a ledger account in Form C. License books of all descriptions must be kept securely under lock and key, and the District Forest Officer and Range Officers will invariably check and compare the numbers with the periodical statements on inspecting offices.

I would retain the Taluk Amildar in this category. He has been authorized by the subsidiary rules of 21st September 1889 to issue licenses for felling and removing bamboos, &c., from District Forests and it seems undesirable to divest him of this power. H. R.

7. *License issuing officers.*—There will be four classes of license issuing officers, *viz.*:—

1. Specially authorized forest officers.
2. Specially authorized village officers.
3. Salaried license vendors.
4. Commissioned license vendors.

Village officers and commissioned vendors will receive a commission ranging between a minimum of Rs. 6-4-0 and a maximum of Rs. 12-8-0 per cent on the monthly amounts collected. The limits within which Forest officers are authorized to receive and retain moneys prescribed in Government Proceedings No. 2907-16—Ft. F. 16-96, dated 5th October 1899 should not be exceeded.

To ensure the success of the new scheme I would be more liberal in fixing the commission. It may well be allowed at double the rate recommended by the District Forest Officer. Kannishdars are given their commission at this rate. H. R.

Security is not necessary in the case of village officers whose solvency and respectability are vouched for by Amildars, but in the case of others as well as of the last two classes, cash security in the shape of Savings Bank deposit for Rs. 150 or personal security for Rs. 300 should be taken. They should further execute an agreement for good behaviour in Form D.

8. License issuing officers shall remit to the nearest taluk treasury the amount of their collections accompanied by a letter of advice as often as possible, but not less

In the case of patels who are appointed license vendors, the help of forest subordinates may be given in carrying the remittances to the treasury whenever necessary. H. R.

than once a month. License issuing officers of the last two classes shall not retain in their hands revenue in excess of their securities.

9. The commission earned by vendors of the second and fourth classes will be paid to them by the Range Officers on receipt of their monthly accounts supported by treasury receipts.

10. *License recovering officers.*—Duplicates of licenses issued shall be recovered by—

1. Forest officers.
2. Specially appointed recovering officers.
3. Village officers.

Licenses should be checked and the produce covered by them compared, as far as possible, before the produce leaves the limits of the forest. Patels of villages should check every license taken out in their villages and recover the duplicates. All duplicates recovered by recovering officers shall be sent to the Range Officer once a month.

But when the patel is himself the license vendor, an independent recovering officer will of course be necessary. H. R.

11. *How to write up license forms.*—Issuing officers will receive from applicants the prescribed fee on the produce applied for and write up all the three parts of the license form in accordance with instructions as regards locality, quantity, route, &c., which will be issued from time to time by the District Forest Officer. They shall sign and date each part, hand over the original and duplicate to the purchaser and keep the triplicate attached to the book as a counterfoil for record in his office.

12. *Duties of license issuing officers.*—Licenses should be issued at all hours of the day and no purchaser should be detained longer than it is necessary to receive his fees and write up the license. License vendors will remit all the collections into the taluk treasury with as little delay as possible. They will be solely responsible for the safe custody and transmission of revenue. They should maintain a register of receipts and issues of licenses in Form E and a daily abstract in Form F. A monthly abstract of the latter should be submitted to the Range Officer in the same form supported by treasury receipts. License books, accounts and cash will be open to the inspection of all Revenue, Forest and Police officers.

This will not be practicable in the case of the village officer whose Revenue and Police duties not infrequently require his attendance at the taluk head-quarters or elsewhere. To meet this difficulty, I would propose that he may be authorized to perform his duties as license vendor by proxy, during periods of his unavoidable absence from the village. H. R.

Counterfoils of used up license books should be returned to the Range Officer.

13. *Duties of Range Officers.*—The Range Officers will maintain the following registers:—

1. Register of receipts and issues of license books in Form B.
2. Ledger showing license books issued and returned by issuing officers in Form C.
3. Register showing abstract of monthly statements of permits issued and revenue realized in support of the entries in their cash accounts in Form F. This register will be compiled from the corresponding monthly returns received from the issuing officers. They shall take care to compare the figures with those entered in recovered duplicates. A copy of this register will be submitted to the District Forest Officer with the monthly accounts.

14. All revenue obtained by sale of licenses and credited into the treasury should be exhibited with full particulars in the debtor and creditor sides of the cash book.

15. On receipt of the license issuing officer's accounts, they should check them carefully, and, if found correct, disburse to vendors entitled to them the commissions they have earned. License books and accounts of license

issuing officers should be checked once a month by the Range Officers or Foresters.

16. The counterfoils of license books returned by issuing officers will be checked carefully with the monthly returns submitted by issuing officers and any differences noticed shall immediately be brought to the notice of the District Forest Officer. Recovered duplicates of licenses will be compared with their corresponding counterfoils and posted on to them, reporting to the District Forest Officer any differences noticed between them. Counterfoils of used up license books together with the recovered parts shall be sent to the District Forest Officer for custody.

17. *Duties of recovering officers.*—As soon as produce has been checked with the license and found to be correct, the original and duplicate parts of the license shall be endorsed under the signature of the recovering officer with the words "checked and passed," and the endorsement shall be dated and the original license will be handed over to the person producing it and the duplicate retained for transmission to the Range Officer. Should the produce not agree in quantity or kind with that specified in the license, it will be retained and a report to that effect submitted to the nearest Magistrate or Forest or Police officer.

Patels of villages will be held responsible for checking licenses and comparing the produce covered by them when such produce is removed into their villages and for the punctual transmission of recovered licenses to the Range Officer.

18. *Conditions under which the license is granted.*—The following conditions will be printed on the back of the original license for the guidance of the licensee:—

(*a*) The license is not transferable and must be shown on demand to any Forest officer, any Revenue officer or to any Police officer.

(*b*) The licensee shall produce this for check with the produce before the Forest officer from whose jurisdiction the produce has been removed or to any recovering officer specially appointed for the purpose or to the patel of the village into which the produce is removed.

(*c*) The licensee shall observe all the conditions stated in this license as to quantity and kind of produce and as to the locality where it should be collected and the road by which it should be removed.

(*d*) Any breach of the above conditions will render the holder liable to immediate cancelment of this license and to the punishment provided by law.

19. *General.*—If, before the expiry of the period mentioned in the license, the produce has not been cut collected or removed in pursuance of the license, the license shall be deemed to be cancelled, but the licensee shall be entitled to an extension of the upon his proving to the satisfaction of the Range Officer that the non-removal was owing to unavoidable causes, such as heavy rains, floods or any accident while in transit on his paying a renewal fee equivalent to one-fourth of the fee already paid.

No. 347-55—1792-800, DATED BANGALORE, 14TH NOVEMBER 1901.

ORDER THEREON—In the Dasara Assembly of 1899, the Representative Members from the Channapatna taluk urged that the rates of fine and feeding charges levied in pounds situated in State Forests were heavy, and prayed that either the rates might be reduced to what they are for village pounds or that the cattle be impounded in village pounds and the proceeds credited to the Forest Department. The representation was forwarded to the Deputy Commissioners of Districts for enquiry and disposal Subsequently Deputy Commissioners were requested to report the rates prevailing in the districts. After considering the replies received, Government are pleased to prescribe the following uniform rates for feeding animals in Forest pounds :—

	Rs.	a.	p.	
Elephant	1	0	0	per diem.
Buffaloe	0	3	0	
Other cattle	0	2	0	
Calves	0	1	0	
Sheep and goats	0	1	0	
Horse	0	4	0	

2. Government do not consider it desirable to abolish Forest pounds or to remit or reduce the fines imposed in connection therewith.

Proceedings of the Government of Mysore,

Letter No. 647—27, dated 19th July 1901, from the Inspector General of Education in Mysore, stating that the Hindustani Schools at Mysore and Ganjam, which are at present under the management of the Muzrai Department may, in the interests of Mahomedan Education, be placed under the control of the Education Department, as suggested by the Assistant Deputy Inspector of Hindustani Schools, West Circle; and

Letter No. 149, dated 16th August 1901, from the Deputy Commissioner, Mysore district, reporting on the above.

No. 598-601—MUZ. F. 114-92, DATED BANGALORE, 7TH NOVEMBER 1901.

ORDER THEREON—There are at present two Hindustani Schools maintained from the funds of the Gumbaz at Ganjam in the Seringapatam taluk. One is located at Ganjam and the other at Mysore. The monthly cost of maintaining the former which is called "Hyderi Madrasa" amounts to Rs. 25-8-0 and that of the latter which is called "Sultani Madrasa" amounts to Rs. 61 as detailed below. These schools are under the direct management of the respective Taluk Amildars like other Muzrai Institutions.

2. The Inspector General of Education in Mysore brings to the notice of Government that these schools have been for many years deplorably inefficient and mismanaged and therefore suggests the desirability of placing them under the control of the Education Department in view to their future improvement.

3. The Deputy Commissioner of the Mysore district, whose opinion was called for regarding the present condition of the schools as well as the desirability of their management being handed over to the Education Department, reports that he inspected the "Sultani Madrasa" in the Mysore city and that the complaint against its present management is well founded; and consequently supports the recommendation of the Inspector General of Education. In these circumstances the Government are pleased to sanction the transfer of the management of the two Hindustani schools in question to the Education Department with effect from 1st December 1901, the cost of the maintenance of the Institutions being defrayed from the Gumbaz Funds as heretofore.

READ—

Letter No. R 735, dated 30th September 1901, from the Deputy Commissioner, Bangalore District, reporting that Mr. A. Forrester who has been granted a license to collect corundum in the Dodballapur Taluk has not furnished him with any accounts or paid the royalty and the local cess thereon due from him for the years 1899-1900 and 1900-1901 except a small sum of Rs. 5-6-1 for the year 1899-1900 and requesting to be informed whether the balance due has been paid in this office or deducted from the deposit amount.

No. 269-271—S., DATED BANGALORE, 20TH NOVEMBER 1901.

ORDER THEREON.—The Deputy Commissioner is informed that nothing has been paid by Mr. Forrester in this office towards the guaranteed royalty amount and he is requested to invite Mr. Forrester's attention to clause (3) of the Agreements and to clause (3) of the Covenants by the licensee in the license granted to him, and call upon him to make good the full amount guaranteed for each taluk for the calendar year 1900, together with any other amounts that may be due from him under clause 2 of the said Agreements.

2. With reference to the Deputy Commissioner's statement that he has not been furnished with any accounts by Mr. Forrester, the Government observe that Mr. Forrester cannot remove any corundum that has been collected by him except under a permit from the Amildar of the Taluk (*vide* clause 2 of the Covenants by the licensee) and that any information that the Deputy Commissioner may require can be had from the Amildar of the Taluk. The Deputy Commissioner has further the power to inspect all accounts kept by Mr. Forrester (*vide* clause 5 of the Covenants by the licensee).

3. The Deputy Commissioners of the Tumkur and the Kolar Districts in which Mr. Forrester has also the license to collect corundum are also requested to see that the provisions of the license as regards royalty and other dues from Mr. Forrester are complied with.
